OBITUARY

The death of Mr. A. G. Weigall, in London, on the 19th. August, marks the passing of one of the outstanding figures of Anglo-Brazilian Commerce.

Over a period of nearly fifty years Mr. Weigall has been associated with Brazil, and was connected with the Rio de Janeiro Flour Mills and Granaries Limited, (Moinho Inglez), almost from its inception, of which Company he was General Manager in Brazil for several years, until his resignation in 1925. He took up his position on the Board of Directors in 1926, and was appointed Chairman of the Board in 1930, since when Mr. Weigall visited South America on two occasions, the latter of which was as recently as four months ago.

His friends and associates in Brazil will miss him keenly, and join in extending to Mr. Weigall's relatives and friends their sincere sympathy.

Notes

State of
Minas Geraes

Dr. Benedito Valladares Ribeiro,
Governor of the State of Minas
Geraes, at the opening session of the
Assemblea Legislativa de Minas Geraes,

gave a report of his administration. We give below an abridged summary of those points which we think will be of most interest to our readers, omitting legal, political, educational and municipal matters, and others of perhaps minor importance.

Snr. Valladares, commenting on the coffee policy of the State, points that this product is unquestionably the most important fount of revenue, and that the value of the commodity has been decreasing year by year. In 1929, coffee exports rendered some seventy thousand Contos of Reis, which, dropping to just over thirty-five thousand Contos in 1930, rose again to between sixty and seventy thousand Contos during 1931 and 1932, only to suffer an alarming fall in 1933 and 1934. Exports in 1931 were well over 5,000,000 bags, but due to excessively low prices about that period, the income derived was relatively small. The 1933/34 drop was caused chiefly by the institution of the "Sacrifice Quota", which cost the State some twenty one thousand odd Contos, to which must be added nearly twelve thousand Contos relative to the reduction in the gold tax.

While on coffee matters, Snr. Valladares gave a short resumé of the activities of the Instituto Mineiro do Café, explaining the factors leading to its inauguration and the reasons for its eventual dissolution.

In 1924 a Decree was signed calling for a tax of one Milreis gold on every bag of coffee produced, for the defense of prices on the markets, which was the first step towards the policy now ruling throughout the whole of

Brazil — the greater good of the greater number. This tax was paid to the Coffee Defense Service, a subsidiary Department of the State Government.

With the advent of the heavy fall in coffee prices which began in 1929, the State decided to take further steps to organise and control production and marketing, and the Instituto Mineiro do Café came into being.

At first the Instituto consisted of a Director elected by the Governor of the State, a Director representing the Banco de Crédito Real de Minas Geraes elected by the Directorate of this Bank, and one of three Directors elected by the Minas coffee growers themselves. Little by little the coffee growers asserted their right to a larger controlling interest, and in February 1931 the Instituto was granted a conditional independence by the State Government, and a Council of Coffee Growers was elected to the Instituto.

The Statutes established independence from the State Government (Decree No 9848 of 2-3-31) subject to the following condition: that, while the Milreis Gold Tax continued to be collected and applied to the defense of coffee, the State Government should undertake the administration of the Instituto, and that only when the "Defense Fund" attained the sum of twenty thousand Contos gold should the administration pass into the hands of the growers, when the gold tax would be withdrawn, and any surplus funds not utilised in the defense of the product or general running costs would be refunded to the various contributors.

However, contrary to the provisions of Decree No. 9848, the Instituto was made over to the growers just one year after its inception, under Decree No. 10,244 of the 3rd. February 1932.

Snr. Valladares summarised the assets of the Instituto when it passed into the hands of the growers as follows:

Regulating Warehouse in Guaxupé, Rs.	2.715:646\$848
do. do. Cvsneiros.	1.736:500\$269
do. do. Entre Rios ..	1.707:488\$072
do. do. Cruzeiro	no value declared
Land in Rêrreio	35:000\$000
Office Building in Rio de Janeiro	no value declared
9% Bonds, (for erection of a Head Office in Rio de Janeiro)	2.000:000\$000
"Defense Fund"	7.711:625\$861
Balance of "Defense Fund" as at 31-12-30, brought forward	12.285:414\$813

Also, the proceeds of the Milreis Gold Tax, Government grants, donations, and assets derived from the employment of the proceeds of the milreis tax.

It was at about this time (early 1932) that the three million dollar loan of the Banco Italo-Brasileiro to the State of Minas Geraes fell due for liquidation, and owing almost solely to the high costs incurred relative to the Instituto, the Government was obliged to request an extension, with interest and capital payable fortnightly over a period of three years. The State was so hard put to meet these payments on the due dates that the Instituto was appealed to, and the payments were thenceforward made by the Instituto, against 7% bonds emitted by the Government especially for the purpose. The Instituto, however, not satisfied with the 7% bonds, made almost ceaseless requests of the Government, culminating in a demand that the surplus of the five shilling tax — instituted by the Federal Government for the service of the twenty million pound debt of the State of São Paulo — should be handed to the Instituto. In accordance with the provisions of the Coffee Conference, this surplus was to be employed in "the service or liquidation

CHILDREN are no PROBLEM

Aboard Blue Star Ships

PARENTS who have the care of children on long sea voyages are apt to arrive in port more tired than rested, for most ships give small consideration to the welfare of the little ones. On the recently renovated Blue Star ships, however, you will find special playrooms, light and sunny, thoughtfully equipped, where the young passengers can enjoy themselves under competent supervision. Officers and crew pay special attention to the children, too, and games and parties are arranged which keep them busy and happy all their days aboard. In many other ways the Blue Star Line has thought of small but important details which make your voyage comfortable and pleasant. Running hot water in every stateroom, for instance, and real beds equipped with expensive coil-spring mattresses. Lounges have deep, restful chairs. Stewards discover your individual likes and serve you with quiet efficiency. Everywhere you are conscious of a warm personal interest and hospitality. Go the Blue Star way once. You will appreciate why many passengers choose Blue Star ships for voyage after voyage. Ask your nearest Blue Star agent for details.

BLUE STAR LINE

THE LINE OF COMFORT, SERVICE AND COURTESY

of mortgages guaranteed by stocks of coffee, in each particular State, and, in the absence of such, exclusively for the use of coffee plantations". In view of the fact that the Instituto received full indemnization for its payments in connection with Belgian-Italian Bank, and that Minas Geraes had incurred debts guaranteed by coffee, the Instituto had no right whatever to the five shilling Tax surplus. Thus instead, of protecting coffee, the Instituto Mineiro do Café was rendering the position more involved, as the mortgages on coffee could not be lifted without the five shilling tax surplus, which was designated to this end.

Thus, by degrees, the Instituto was consuming a far greater proportion of the resources of the State than its maintenance merited. It had collected over 124,000 Contos of Reals; running costs etc. amounted to 28,000 Contos; depreciation, 13,000 Contos; improvement of crops, 74,000 Contos; purchase of land, loans to growers etc., 71,000 Contos. Supporters of the Instituto totalled some 77,000 growers, and it was ultimately decided that the Instituto should be closed down, and that the Departamento Nacional do Café should take over all its responsibilities.

Snr. Valladares then passed from coffee on to cotton, saying that the development of cotton growing deserved more attention than it received, with the present remunerative prices ruling, and the excellent growing conditions to be found in the State. The State had inaugurated experimental stations and distributed the best seeds to planters, machinery was loaned to those who required it, exchange centres had been provided in the capital of the State, and as many as ninety-eight co-operative fields had been opened.

As regards tobacco, the State, as in the case of cotton, had furnished first class seeds, co-operative plantations were inaugurated, machinery was loaned to planters, and forcing houses erected. A deposit for fermentation and classification had been opened in Belle Ho-

rizonte, and a further experimental station has recently been completed.

Touching on Citrus Fruit, Snr. Valladares mentioned that a modern packing house had been erected in Leopoldina, in the centre of the orange growing zone.

Vines and oleaginous plants have not been neglected; an experimental vineyard has been planted at Caldas, and an intensive propaganda campaign been instituted by the State in regard to the various uses of vegetable oils.

At Patos and Figueira experimental wheat farms have been opened with the most satisfactory results.

The gold-mining industry has been much helped by the Geological Service of the State, and alluvial miners have been furnished with mechanical centrifugals.

Some four hundred kilometres of first class, and more than two hundred kilometres of second class roads have been opened to public use, thus speeding up motor transport and linking up remote parts of the States with the main thoroughfares.

As regards propaganda, the Government of the State is at present mounting a modern broadcasting station whence specially selected programmes will be transmitted.

A permanent Samples Fair is under construction; the State has exhibited at the International Samples Fair at Rio de Janeiro on all occasions, to the best advantage, and the State exhibits for the Farrouplha Centenary Exposition in Rio Grande do Sul are ready.

Exchange Department of the Banco Brasil

Due to the appointment of Snr. Souza Mello as President of the Departamento Nacional do Café, the post of Director of the Exchange Department of the Banco do Brasil fell vacant. Snr. Alberto Teixeira Boavista, ex-Director of the Bank's São Paulo Branch, has been appointed to this situation.

*Italo-Brazilian
Interchange*

Negotiations to supply Italy with a large quantity of Brazilian coffee are nearing an end under most favourable conditions. The negotiations are a part of the trade parleys which have been intensified lately. Sr. Luiz Sparano, the Brazilian commercial attaché at Rome, has been negotiating actively with representatives of the Italian Ministries towards selling Italy various Brazilian products. The negotiations connected with coffee are making better headway than the others, though Italy recently purchased 31,000 tons of Brazilian frozen meat.

Meanwhile, the contract has been signed for the building by Italy of a number of submarines for the Brazilian Navy to be paid for in kind. The submarines will be built in various Italian shipyards under the allotment system effected by the government.

Despite trade restrictions and the quota system the exports of coffee to Italy in the first four months of the current year increased 5,000 quintals over those during the corresponding period in 1934.

Propaganda for Brazilian coffee is going on actively throughout Italy through special representatives appointed for the purpose. A series of special coffee-selling stores, intended both as propaganda bureaux and clearing houses, have been opened in the last two years and another large one will be inaugurated shortly in the Piazza Venezia, opposite Premier Benito Mussolini's official residence.

*Agricultural
Products*

Exports of agricultural products during the first six months of the current year totalled 1,111,042 tons, valued at 1,684,351 Contos of Reis, as against 882,230 tons and 1,516,454 Contos during the same six months in 1934. Only two commodities showed decreases, viz. — Coffee seven hundred odd thousand bags down, and Maté, 2,723 tons down, (3,305 Contos of Reis).

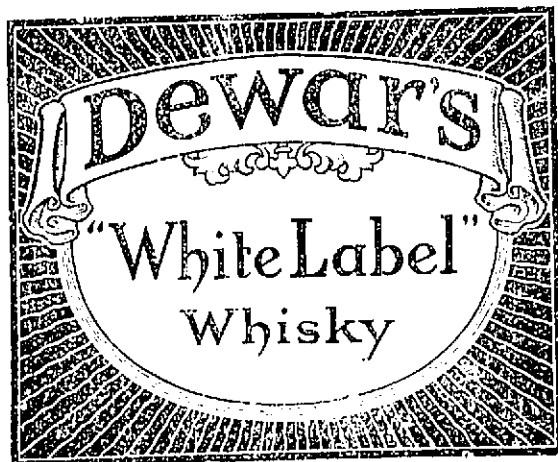

Cotton exports increased by 30,614 tons, (269,214 Contos); sugar, 35,762 tons, (19,823 Contos); Carnaúba Wax, 1,167 tons, (10,102 Contos); Nuts, 854 tons, (6,005 Contos); rice, 13,805 tons, (8,559 Contos). Maize exports showed an insignificant increase.

We give below a free translation of a circular of the Fiscalização Bancária of the Banco do Brasil relating to the time limits fixed in Circular No. 41 of that Department.

17th. August, 1935.

To Banks and Exporting Houses:

The time limits fixed in Circular No. 41 of the 6th. instant, covering sales on terms of over 180 days, are extended for periods of 30 and 15 days respectively. Exporters may thus avail themselves of these periods to close exchange, within the time limits mentioned.

**LONDON FINANCIAL POSITION**

August 16, 1935

The chief event in London financial circles during the past week was the disturbance created in the silver market by a change in the policy of the United States Treasury, which on Monday last lowered the price at which it would buy in London to 30.½d. per ounce. This led to nervousness on the part of bull operators with the result that on Wednesday, in view of the large amounts of the metal on offer from the East, the American Treasury further reduced its buying price by ¾d. to 29.3/16d. per ounce. The quotation further declined on the following day to 29d. Huge quantities of the metal were sold, and it is estimated that on Wednesday last the amount taken by the U. S. A. was 25,000,000 ounces and on Thursday 4,000,000 ounces, the market becoming steadier on the closing days of the week, with America still absorbing the amounts of the metal offered. There is continued uncertainty as to the future policy of the States, but it is believed that the American Treasury desires to get the better of the speculators who bought in the belief that America intended to buy silver until the specified proportion of silver to gold was reached, and that the policy of lowering the price will be reversed when the Treasury is satisfied that it will not have to absorb enormous amounts. The latest cables from New York are of interest, as they mention that Senator Thomas, a leader of the inflationist group and a member of the silver bloc, had a conference with Mr. Morgenthau, U. S. Secretary of the Treasury, to discuss the threatened Congressional investigation into the Government's silver buying. It is reported that after the conference, Senator Thomas said he told Mr. Morgenthau that it was futile to pursue the present silver policy unless the price was raised to \$1.29 per ounce. In the foreign exchange the influence of America's larger silver purchases is reflected in the dollar, as the New York quotation has risen during the last week from 4.96.½ to over 4.98 in consequence of purchases of sterling to pay for silver, and apparently these have more than offset the effects of the increased volume of business in dollar shares in the London market. The gold bloc currencies have displayed a weakening tendency caused by uneasiness regarding the Abyssinian dispute, but violent fluctuations have been prevented by "control" operations.

The outstanding matter of interest in international affairs is the three-power conversations that have now commenced in Paris between Baron Aloisi, (the Italian delegate), M. Laval and Mr. Eden, on the Abyssinian question. Complete uncertainty exists as to the outcome of these discussions, but it is evident that there is an increasing feeling of uneasiness in financial circles here, and this has not been diminished by the news published here to-day that Italy has now 1,000,000 men under arms.

The uneasiness regarding Abyssinia is now affecting the London stocks markets. The exceptional firmness in industrial shares that developed during the last account period extended into the present

Furniture & Furnishing only

week, but the buying movement has suddenly died down and prices have reacted on profit-taking, with the result that the week closes with a dull tendency in practically every department. This is partly due to holiday influences, especially as regards British Government stocks. These enjoyed a good rise recently, in consequence of the success of new capital issues, indications of improving trade, and latterly Continental buying induced by apprehension regarding the future of the gold bloc currencies, but prices have now given way, although not substantially, mainly because of the lack of support but also because of the Italo-Abyssinian situation. Markets were also influenced by the speech of General Smuts in which he said that a war in Abyssinia would have grave repercussions for the League, as people would no longer look to it for security. He stated that it was possible that Britain might be able to keep out so far as Europe was concerned, but a great conflict in Africa must have serious repercussions in the Sudan and Egypt and raise anxious feelings in Africa between the black and white races. He considered that would be one of the most serious aspects. The trouble might spread all over the Continent of Africa and they would find that every African would sympathise with Abyssinia.

In the foreign bond market Chinese and Japanese issues have remained steady, helped by the

departure of Sir Frederick Leith-Ross for the East, and Brazilian issues have recovered somewhat, as fears of a suspension of the debt service have been partly removed by the official announcement regarding payment of interest on the Brazilian 4 per cent Loan of 1911. Argentine rails, however, continue quiet and dull, and show no response to the latest advices of rains.

Meanwhile, as regards British trade activity, the latest information continues to be favourable. The overseas trade returns for July show the best domestic exports, with the exception of October, 1934, since January, 1931, and the amount is the highest July figure for five years. Reports from the iron and steel manufacturing districts are encouraging, while the monthly statistics of iron and steel production for July show that the steel output for the month rose to 803,300, as compared with 770,000 tons in June. The shipbuilding industry appears to be enjoying a revival as it is announced that the Admiralty contracts at present in the hands of Clyde shipbuilders are worth £20,000,000, Vickers-Armstrong are to receive an order from Argentina for a cruiser costing £1,000,000, while the Ellerman Lines have ordered a 10,000 tons liner from the Clyde. One of the directors of Harland & Wolff, is reported to have stated that shipbuilding prospects were never brighter than to-day.

LONDON PRODUCE NOTES

August 16, 1935

SUGAR — Business on the London Produce markets has again been quiet, especially so in the case of sugar. There has been no improvement in the demand for refined sorts, while business in raws was confined to a few thousand tons, foreign 96 per cent, Aug/Sept. at 4/3 per cwt. The Mauritius Syndicate, however, have sold about 6,000 tons, 99 per cent, December shipment, at a parity of 4/5 1/2d. per cwt. c. i. f. The futures market has sagged a little and up to date, 36,400 tons of raws have been tendered against the August contracts, and has been readily absorbed.

RUBBER — The rubber market has also suffered from lack of business, for while there is a steady trade demand, speculative interest is dormant. The American questionnaire figures give the imports into the United States during July, as 46,900 tons; consumption 36,400 tons, and stock 330,500 tons against 320,500 tons at end of June, but the afloat at 49,000 tons was 6,600 tons lower. The consumption during July was 200 tons below that for June, but 3,800 tons higher than during July last year. One of the Malayan representatives on the International Rubber Regulation Committee, in a speech made in Singapore, stated that if consumption maintains the present rate of progress and the restriction of 35 per cent which came into force on 1st July, is continued, the year to end of next June, should see a reduction in stocks of about 200,000 tons, with, he hoped, a more remunerative price for the commodity.

TEA — The Indian tea auctions were interesting this week for the offerings of old season's crop has ended and new crops have commenced. Many invoices showed very attractive quality both as regards leaf and liquor and these and tippy sorts met a strong active demand, and realised higher prices than at the corresponding sale last year. Thin liquoring kinds were fractionally easier while plain and common descriptions were quiet but steady.

COFFEE — Very little has been doing in coffee and at the auctions. African sorts were negle-

cted, but a few lots of Jamaica, mountain grown, sold at steady rates.

JUTE — The raw jute market eased under freer offerings of old crop, while the spinning demand from the Continent fails to improve. Sellers, however, showed more reserve at the decline but the improvement which followed was not fully held. Old crop Aug./Sept. sold latterly at £17.16.3 and new crop at £18-6-3, showing a decline of about 7/6 per ton on balance.

TIMBER — The demand for mahogany was chiefly confined to prime wood and for this values were firm whilst faulty logs were sold at low rates. Cargo quotations: — Tabasco, squared 7d. to 10d., round 5d. to 8d. Guatemalan 6d. to 9d.; Honduras, squared 9d. to 11d., round 6d. to 9d. Nicaraguan, squared 7d. to 9d., round 6d. to 8d.; Costa Rican 5d. to 8d.; Panama 5d. to 8d.; Colombian 5d. to 6d.; Axim, Grand Bassam &c, 4 1/2d. to 5 1/2d.; Lagos, Benin, and Niger 4 1/2d. to 6 1/2d.; Cape Lopez 3d. to 4d.; Gaboon, squared 2 3/4d. to 3 1/4d.; round 2 1/2d. to 2 3/4d.; Cuba 4d. to 8d. and St. Domingo and Jamaican 4d. to 8d. per foot.

FRUIT — Oranges were in better demand; Brazilian, Rio Pera, 126, 8s. 9d.; 150, 8s. 6d. to 8s. 9d.; 176, 8s. 9d. to 9s. 9d.; 200s, 9s. to 10s.; 216, 9s. to 9s. 9d.; 226, 9s. 6d.; 252, 9s. 6d. to 10s.; 288, 9s. to 9s. 6d.; 324, 9s. to 9s. 3d.; 360, 9s. 9d.; Navels, 126, 8s. 9d.; 150, 8s. 6d. to 9s.; 176, 8s. 6d. to 9s.; 200, 8s. 9d. to 9s.; 216, 9s. to 9s. 6d.; 252, 9s. Bananas — Canary 9s. to 11s., large 12s. to 15s. per crate; Brazilian 8d. to 10d., and Jamaica 8d. to 9d. per dozen. Grapefruit. — African 11s. to 17s. 6d.; Argentine 12s. to 14s. 6d. Arrivals from Brazil last week; bananas 44,000 bunches; oranges 59,000 boxes; lemons 1,200 boxes.

HIDES — A fair business continues to be done in dry River Plates and the market is firm. B. A. Americanos are at 5 1/2d.; B. A. Summers and Anchos at 4 1/2d.; Cuyabanos at 5d. Chubuts 5 1/2d., and Sierra Cordobas at 6 1/2d. per lb. Africans were quiet with Capes rather dear at 7 1/2d. and 6 1/2d. for first and second dries, respectively, with D/S at 6 1/2d. and 5 1/2d. per lb. Queenslanders were firm at 5 1/2d. for D/S Meats.

The City of Santos Improvements Company, Limited

CAIXA 4 — SANTOS — ESTADO DE SÃO PAULO

GAS DEPARTMENT. Special coke and tar produced by the continuous carbonization process: Also soft pitch for waterproofing purposes, crude benzol and oils for the manufacture of disinfectants.

WATER DEPARTMENT. — Distribution on the constant supply system. Special cheap rates for industrial supplies. Ships supplied with water of guaranteed purity, at the rate of 150 tons per hour if required.

TRAMWAYS DEPARTMENT. — Seventy kilometres of rapid electric service. Season-tickets with non-stop service. Special terms for large parties, parcel delivery; service to all points. Electric transport of goods and building material at cheap rates. Goods from interior should be despatched "Companhia City, Desvio Saboc".

MOTOR OMNIBUS SERVICES: Town Avenues and Beach.

Telegraphic Address "CIDADE" — SANTOS

BAHIA COCOA MARKET REPORT

Bahia, 17th August, 1935.

STATISTICS:

Exact movement during July:

	<i>Bags</i>
Receipts	215.441
Shipments	184.852
Stocks	70.524
	<i>Bags</i>
Receipts from 1st to 16th inst.....	98.737
Shipments do. do.	128.699
Stocks on 16th inst.	40.562

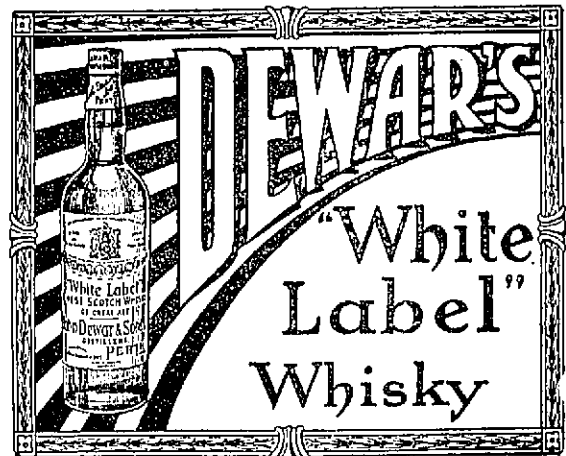

Movement for the present crop from 1st of May until 31st of July and comparative figures with the past crop during the same period:

	1934/35	1935/36
Receipts	307.524 bags	360.266 bags
Shipments	242.334 bags	296.851 bags
Stocks	77.664 bags	70.524 bags

CROP & WEATHER: The weather during the week under review continued very rainy with heavy storms along the coast.

The cocoa market is much affected by the coastwise transport service in view of the condition of the entrance to the Ilhéos bay, which only enables the navigation of steamers with a draught of less than 11 feet, therefore the 2 or 3 Swedish steamers calling each month can only load 30 to 40% of the cargo leaving that port and only at the change of the moon. All other transport possibilities by coasting vessels, motor ships and sailing boats to all Southern ports of this State prove to be more and more insufficient on account of which receipts at Bahia, including direct shipments from Ilhéos to New York will not go much beyond 200.000 bags per month, resulting in the accumulation of fairly large stocks in the interior.

Considering consignments to be made to South American countries California, Europe, Canada and others we do not believe that shipments to New York and other U. S. A. Atlantic ports will attain to more than 150.000 bags, even though there may be many steamers and a good demand. In the event of there being no change in this

respect, cocoa will be received until March/April next year.

MARKET & PRICES — Prices in Mitris locally and in the interior continued very firm with upward tendency, although our exchange and prices on the New York Cocoa Exchange fluctuated sharply. Large coverings are being made by exporters and dealers and even farmers are speculating heavily trying to keep prices on a high level. Sales which have been made abroad at buyers' prices are due to local factors, such as the necessity of some exporters to liquidate their exchange contracts which cannot be prolonged, whereas other exporters consider more advantageous to sell here rather than abroad especially for delivery in August/October and perhaps November/December.

Regarding the present crop to date everyone gives a different impression of the market, on account of which it is rather difficult to establish the general outlook of the market at present.

We quote to-day on Superior.

c. & f. New York	Aug/Sept. shipment..	4 3/4 c. per lb.
	Nov./Dec. shipment..	4.80 c. do.
	Jan./March shipment..	4 1/8 c. do.
c. & f. Amsterdam	Aug./Sept. shipment..	sh.22/- per 50 ks.
	Oct./Dec. shipment..	sh.22/3 do.
	Jan./March shipment..	sh.22/6 do.
c. & f. Hamburg	Aug./Oct. shipment..	RM-16.50 do.

NOTE — In the stock of Rio were included 79 bags, premium of 10% to shippers.
 In the stock of Santos were included 6.890 bags, by D. N. C.

I F YOU are perfectly satisfied with the price you are paying for your envelopes you are wasting time reading this advertisement BUT just to save you wasting time we suggest that the next time you need any envelopes you send us a sample. We'll match it and send you our quotation. If you can get a cheaper quotation it means that you are either getting inferior quality envelopes or else a mistake has been made.
