PREFACIO

Nestas primeiras publicações de assumptos relativos a Finanças, a cargo da Primeira Secção desta Directoria, serão reunidos os elementos da receita e despesa da União, dos Estados e dos Municipios, bem assim da divida fundada respectiva.

Na ordem do serviço se vai destacando, em especial apreço, o esforço dos auxiliares mencionados pelo Chefe da Secção, em sua competencia.

Referem-se taes elementos, não sómente ao estado presente, sinão aos annos anteriores, desde quando se tenha podido obter os dados convenientes, a partir dos primeiros factos da nossa organização politica.

Os quadros assim formulados, contendo os algarismos reportados a cada anno, permitem fazer a comparação dos resultados e seguir o desenvolvimento do paiz, sob o aspecto dominante das finanças, numa progressão verificada, sem embargo de crises periodicas, que póde dar idéa da progressão no futuro proximo, salva ainda a influencia de novos factores da industria extractiva, da industria agricola ou da industria pastoril, que se venham produzir provavelmente e com vantagem, na vida economica.

Quasi sempre excedida a receita pelo numero da despesa, que se applica em forte proporção, nos dilatados periodos de paz, a melhoramentos importantes, e liquidado o excesso por via de emprestimos a longo prazo, todavia os onus que elles acarretam de juros e amortização, como representam forte immobilização de capitaes productivos, transformados em valores industriaes efficientes, são compensados de sobra, por outros tantos meios propulsores de actividade e de progresso, e os grandes emprestimos se tornam instrumentos da valorização e riqueza geral.

Dahi se pôde bem ajuizar das forças economicas em acção, da intensidade do seu valor potencial, e contar com probabilidades devidamente calculadas, que dão muita margem para a expansão do credito publico.

Desta inspecção geral, absolutamente necessaria, proceder-se-á para os estudos parciaes, minuciosos e desenvolvidos, em diversas relações, assim derivando do todo para as partes, no intuito de organizar estatisticas financeiras especiaes.

FRANCISCO BERNARDINO R. SILVA

DIRECTOR

Março — 1914

Exmo. Sr. Dr. Director do Serviço de Estatística.

Ao assumir a chefia desta secção encontrei em adiantado estado de preparo o incluso trabalho sobre *Finanças do Brazil*, cuja ultimação apressei e tenho agora a honra de apresentar a V. Ex.

Dizer do valor de trabalho de tal natureza, não comporta, de certo, os estreitos limites de um officio, que tem apenas o fim de capear e submeter á alta competencia de V. Ex., a cuja sombra directora surgio, cresceu e tomou corpo, o resultado de um serviço, que, finalmente e tão completo quanto possível, vae reclamar a luz da publicidade e o julgamento e apreciação dos especialistas e dos que têm necessidade de conhecer o estado economico e financeiro do Brazil.

E' o primeiro trabalho desse genero e abrange o longo periodo de 1823 a 1913. Não é um simples amontoado de algarismos e sim, annotações de cifras methodicamente organizadas, collectadas e comparadas, devidamente analysadas e estudadas segundo as causas, a época e o periodo a que se referem.

E', pois, uma base para o exame das finanças federaes, organizadas como está com a devida severidade estatística e pelas quaes se começa o estudo das finanças nacionaes, que é materia de reconhecida relevancia.

Para este primeiro volume recorreu-se aos balanços do Thesouro Nacional e a publicações existentes na bibliotheca desta Repartição; e após penoso trabalho pela multiplicidade de elementos heterogeneos, reclamando não pequena dóse de paciencia, conseguiu-se a formação dos quadros principaes, completados com dados tirados de balanços ainda não publicados, como sejam os dados de 1908 a 1909, e os da Alfandega, de 1910.

Assim, calcados sobre dados positivos de balanços definitivos, foram organizados os seguintes quadros sobre a receita e a despesa:

- Quatro quadros demonstrativos de Receita e Despesa da União, discriminados, abrangendo: dois, o periodo de 1823 a 1908, e dois, o de 1909 a 1910;
- Um quadro das rendas das Alfandegas, desde 1855 a 1910;
- Oito quadros das despesas effectuadas nos Estados pelos diversos Ministerios, desde a installação de cada um até 1899;
- Um quadro da despesa escripturada pela Caixa de Londres, no periodo de 1828 a 1907;

— Um quadro discriminado, sobre todos os empréstimos externos e um outro sobre o estado actual desses empréstimos.

Além desses desesseis quadros, mais dois graphics, representativos da relação entre a Receita e a Despesa, e da renda das Alfandegas.

Não é sem grande difficuldade que a secção caminha ao termo dessa jornada, pois como se vê, este serviço está na sua primeira phase, não tendo ainda sido organizados os quadros comparativos, nem os quadros sobre as dividas fundadas: Estadoaes e Municipaes, que serão objecto de um volume opportunamente apresentavel.

Convém, contudo, salientar que este trabalho representa grande esforço e não pequeno passo no serviço da estatística financeira, dada a deficiência das publicações existentes. O proprio Boletim da Exposição de 1908, ultimo trabalho desta Repartição, trazia apenas um quadro sobre receita e despesa, não discriminadas e os dados definitivos embora incompletos alcançavam sómente até 1905.

Finda esta primeira parte — Finanças Federaes —, encetou-se o serviço de Finanças Estadoaes, conferindo e revendo minuciosamente as collectas existentes, e sendo aproveitada tambem a collecção de relatorios, mensagens, leis e balanços que possui a bibliotheca desta Directoria.

Ampliando o serviço houve necessidade de se percorrer todos os Archivos e Bibliothecas publicas, afim de serem colhidos elementos novos e positivos. Infelizmente, foi pouco aproveitavel essa busca, porque apenas na Bibliotheca Nacional foram encontradas publicações que trouxeram alguma luz aos trabalhos já organizados. Consultando-se para mais de seicentos volumes, entre os quaes muitas obras ainda não catalogadas, que por isso mesmo mais difficultaram as respectivas pesquisas.

Terminada a parte referente ás Finanças Estadoaes, foram organizados vinte e um quadros, contendo: as receitas orçadas e arrecadadas e as despesas fixadas e effectuadas em todos os Estados inclusive o Districto Federal, desde o Acto Additional até 1910.

Cumpré notar que as verbas relativas aos orçamentos da receita e despesa foram extrahidas das leis provinciaes e estadoaes e as da receita arrecadada e despesa effectuada o foram dos balanços, relatorios e mensagens, de onde se conclue que nem todos os dados são definitivos, o que será impossivel conseguir,

porque nem todos os Estados publicam os seus respectivos balanços, e os que o fazem, não os têm com a devida regularidade e precisão.

Apezar de taes irregularidades, contra as quaes nenhum remedio é encontrado, este trabalho não deixa de ter o seu merecimento, porque é o primeiro no genero que se publica completo e abrangendo tão longo periodo.

Tenho pois a particular satisfação de leval-o ao proficiente conhecimento de V. Ex., assignalando, aliás, o que já é por demais proclamado, o esforço e a operosidade do 1º Official Sr. F. Leão A. Barboza, que chefiou esta secção quasi todo o anno passado, estabelecendo as bases sobre as quaes foi feito, em início, este importante serviço e dos que trouxeram sobre os hombros a ingente tarefa de sua confecção, os officiaes Srs. Francisco Pires Ferreira e Octavio Gastão Barboza, todos merecedores de francos elogios.

Saúde e Fraternidade.

JOÃO M. DE LACERDA,
CHEFE DA 1ª SECÇÃO

Março — 1914
