INSTITUTE FOR COMMERCIAL EXPANSION

BRITISH PAVILION AVENIDA DAS NAÇÕES

[illegible]

The Institute for Commercial Expansion (late Agricultural and Commercial Museum) has as its purpose the studying and making known the economic wealth of Brazil, both in the country itself as well as in foreign lands, maintaining show rooms with brazilian commercial produce and its respective advertising by means of the most approved methods.

For the accomplishment of this objective, the Institute possesses, in full working order, the following services:

a) Permanent show rooms with Brazil's commercial produce;

b) A complete informative service, both verbal and printed regarding agriculture, commerce, industry, raw material and economic subjects in general;

c) A conference saloon fitted for the exhibition of films of general interest agriculture, industry, etc.;

d) A plantation of industrial plants;

e) A library with close on 10.000 books on subjects relative to Brazil in general, and to each of its States;

f) Distribution of monographs, pamphlets and other publications edited by the Institute;

g) A photographic laboratory;

h) A cinematographic laboratory.

Industrialists are invited to take their sample show cases of brazilian products to the Institute for Commercial Expansion for exhibition free of any charge.

The Institute is open to the public on all week days from mid day to five p. m.

[illegible] received by the Institute [illegible] ABSOLUTELY GRATUITO [illegible] duty no- [illegible] other valuables [illegible] correspondence.

Todos os productos importados pelo Brasil podem ser cultivados em suas terras, extrahidos do seu sub-sólo ou industrialisados em suas officinas. A solução do problema dos capitaes e dos braços assegurará ao Brasil a sua independencia economica.

All products imported by Brazil can be grown on its soil or extracted therefrom, or manufactured in its factories. The solution of the two problems of capital and labour would bring about its economic independence.

Tous les produits importés au Brésil peuvent être obtenus de son sol, extraits de son sous-sol ou manufacturés dans ses usines. La question de l'emploi des capitaux et de l'utilisation de la main d'œuvre, une fois resolue, le Brésil, aura atteint son independance economique.
