BUSINESS NOTICES

Shade Rollers.—The Hartshorn spring shade roller is known far and near, and its merits are constantly securing for it a wider field of action. This roller is manufactured by Stewart Hartshorn, East Newark, N. J., U.S.A. Mr. Hartshorn has issued a souvenir catalogue telling about the growth of the business and its present condition, together with a profusion of illustrations of his main and branch offices, exteriors and interiors of his factories at East Newark, N. J., and Muskegon, Michigan. In one edition of the catalogue, the last five pages are devoted to reproductions of medals taken by the Hartshorn rollers at various exhibitions, and in another edition this same space is devoted to illustrations of different styles of brackets. This new catalogue, in both editions, appeared on the first of January and is ready for gratuitous distribution. It can be had by anyone who will address an inquiry to Stewart Hartshorn, East Newark, N. J., U.S.A.

Photographia Alemã.—This is the excellent establishment of Mr. M. Ribeiro, successor to Messrs. Albert, Herchel & Co., at No. 40 Rua dos Ourives. The quality of work done by this house is superior. The artistic photographer invests his productions with a living reality. His art reproduces not only the mere outlines but transfers to them, too, the spirit of the subject. The result is a photograph which evokes admiration and is perfectly faithful to the original. Mr. Ribeiro's work. His portraits in oil and crayon are a special feature of this establishment, and the work that comes from it is done in the most substantial manner. He also makes a speciality of receiving orders to be filled direct from Europe.

Furniture and Carpets.—Mr. Henry Kingston, at No. 8 Rua dos Ourives, has just received a large invoice of beautiful furniture for parlors, sleeping-rooms and dining-rooms. He has also added largely by fresh receipts to his stock of special upholstered and fine wicker furniture of rich designs and new styles. All the furniture he offers to the public is particularly adapted to this climate and made of the best wood. In his spacious store-room he displays sofas, reclining-chairs provided with every device of comfort, tapestry, curtains, window ornaments, an extensive variety of carpets, mats, hassocks, oil-cloths, quilts, mattresses, in fine everything to be found in a complete and first-class stock of furniture and carpets. The upholstering department is a special feature of this establishment, and the work that comes from it is done in the most substantial manner. He also makes a speciality of receiving orders to be filled direct from Europe.

Chahubyna Ink.—The Chahubyna ink is one of the most desirable writing fluids ever offered to the public. It is the invention of Dr. Cunha Sales, who prepares it by a chemical process from the Cahuby, a tree of the Pernambuco woods. All who have tried it unanimously endorse it as an ink without a rival for its manifold excellent qualities. Its conspicuous qualities are: It dries rapidly, dispensing with the use of blotting-paper; it resists the action of water, so that writing can be wetted and rubbed without injuring it; it writes as well on moist as on dry paper; it does not oxidize a steel pen. Chief of all it is an indelible ink and ensures the perpetuity of written documents. Time does not obliterate it and no acid can remove it, thus

preventing the alteration of writing. It is an absolutely clean ink and serves as well for copying as for ordinary writing. The salesroom is temporarily located at No. 230 Rua da Alfandega, sobrado.

As Grao-Turco.—This prominent establishment of Messrs. Estella & Co. at No. 64, Rua do Ouvidor, is replete with a splendid assortment of goods particularly suitable for the holiday trade. Their stock of objects of art, children's toys, toilet articles and articles for salons, perfumery, &c., is complete and can not be equalled for infinite variety, quality and elegance. An examination of this vast collection of novelties and useful and ornamental articles can not fail to discover something that would make a fitting present. A special exposition of fans of all kinds from the ordinary to the most highly ornamented and richly designed, is made every Saturday and should be seen. The prices are plainly marked and are half those of any other house.

Companhia Grande Hotel de Petropolis.—This company owns the two principal hotels in Petropolis, the Bragança and the Orleans, provided with every desirable comfort for guests and with the service of first-class establishments. The Hotel Bragança is situated at Nos. 21 and 23 on the Avenida 13 de Novembro, a broad and attractive avenue. The Hotel Orleans is at the base of a little mount, fronting the Praça D. Afonso and with the charming river Quatandinha flowing at its side. Both hotels have pleasure-phaetons for excursions in the romantic scenery of the suburbs and carriages to convey passengers to and from the railroad station. This is the season of the year to bear in mind that Petropolis is considered by hygienists to possess an Alpine climate, or the climate of a high altitude, which ensures its entire freedom from the prevailing diseases of the summer and establishes its character of a veritable health-resort. The two hotels described are recommended as the largest and most fashionable in Brazil. In Rio de Janeiro the company has an office at No. 28, Rua de S. Pedro where you will be cheerfully furnished with any further information you may require.

RIO DE JANEIRO, FEBRUARY 2nd, 1892.

The action of the superintendent of the São Paulo railway in running a special fast train for the accommodation of Santos business men who may wish to sleep in São Paulo, will be cordially applauded everywhere. Sleeping outside the plague-tainted atmosphere of Santos may not afford sure protection against fever, but it is surely a benefit and may be the means of enabling many to bear the strain much better than they otherwise would. As long as a man can obtain a good night's rest he will be better able to bear the depressing influences which the heat and work of the day impose upon him. Santos is not a cheerful place at the best of times, and were it not for the "Barra," where the fresh sea breeze gives back much of the vigor expended in the town, life would be almost unendurable there. In such a time as this, however, the overtaxed business man needs more of a change than the Barra can afford, and this opportunity to pass the night in São Paulo is just what he requires. Now that the step has been taken, the question arises—why has it not been done before? With such means of communication, São Paulo is not farther from Santos than Petropolis is from Rio. If now some enterprising hotel-keeper will build a comfortable hotel at some convenient point on the terra, not only will the benefit be appreciated, but we feel sure that the enterprise will be successful. Surely the Santos terra, with its many picturesque localities, its abundance of pure water and its many opportunities for healthful recreation, could easily furnish such a site within one hour's ride of the city.

The fall in Brazilian securities in London during the past few days is probably due to a combination of circumstances, some of which may not be known to us here. It is a very pointed indication, however, that confidence has not yet been restored in the stability of Brazilian institutions, and that something more than the 23rd November is required to place Brazilian stocks back where the revolution found them. However great may have been the disturbing influence of Gen. Deodoro's extraordinary coup d'état, this alone is not the cause for the decline. The failure of Congress to enact a law against the further inflation of the currency, the sterility of the last session in matters of finance, the deceptive character of the budget, the failure to consolidate the republic, the instability of the institutions which the country is supposed to have adopted, and the petty intrigues and quarrels going on throughout the whole length and breadth of the country—all these are noted and are having their influence on those who still hold Brazilian stocks. These matters may not be considered of very great importance here in Brazil, but to the average British investor they are full of significance. He knows that the paper currency of the country is depreciated by over one-half, and that it has been forced into circulation during the past two years in a most extraordinary manner. He justly concludes that the issue is excessive, and that the true remedy is to retrace the false steps thus taken. The inexcusable failure to do this on the part of men who professed to oppose the speculators who are largely responsible for the situation, must unavoidably arouse further suspicion on his part and compel him to feel that a return to sound financial ideas in Brazil is very doubtful. Add to this the continual disorders and intrigues in the states, the overthrow of the legal state governments, the disregard of all sound political principle manifested in these petty revolutions, and the continual meddling of military officers in civil affairs, and there is more than enough to unsettle the confidence of even the staunchest friend of the country. There are a considerable number of patriotic demagogues who affect to believe that this lack of confidence is due to intrigues of enemies. Let no one be deceived in this! The worst enemy Brazil can have is the man who would ruin her credit through ignorance, extravagance and dishonesty. And this is just what the demagogue is doing.

We should like to call the attention of the Journal do Commercio, and other Brazilian journals, to what may be called the non-administration of justice in Brazil. We are convinced that it is useless to appeal to the authorities, or to the law-makers, for they are as indifferent as they are incompetent. The only recourse, in our opinion, is for the press to take the subject in hand and to keep discussing it until something is done. If public opinion can be educated up to the point of demanding a better system and better administration than those which now exist, then there will be some chance for improvement, otherwise they will remain in their present deplorable state. It is all well enough to point out the evils which exist elsewhere and everywhere, but it is idle to do this without any other object than that of detraction. The blunders and abuses committed by others can be made to serve as object lessons to those who seek something better, but for those who nourish even worse abuses it would be better perhaps to maintain a discreet silence. Of the multitude of errors and abuses of which columns can be written, we desire to call attention now to one much needing reform—that of the police. We have repeatedly urged the organization of police courts, as an effective remedy against the outrages so frequently perpetrated by the police. Recent occurrences have demonstrated with more emphasis than ever the necessity of this measure. Arrests are constantly being made and innocent men are subjected to violence and imprisonment almost daily. If this state of things is to continue then the only remedy will be to resist arrest, at whatever cost. The recent experience of three young Englishmen, the indignities heaped upon them, and the brutal amusement derived by their drunken captors over the "lesson" they were giving the ingleses, will probably make the next lesson a little more difficult. If such treatment and a night in a filthy cell is to be the reward for quiet submission, then

the police will have to fight for their future diversions in that line. Of course such a situation will be very undesirable, but whose fault will it be? It is the duty of Brazilians to correct these abuses, and to do it at once; if they neglect the duty, then the consequences must lie at their own door. An educated man naturally objects to the treatment accorded to a dog, and no civilized people would seek to humiliate him in any such way. In addition to this, there is another police question which is becoming very important—that of repressing theft. The city is actually overrun with thieves and burglars, but no thorough effort is being made to capture and punish them. Robberies are committed in the street in open day, houses are broken into nightly, and the hotels have become favorite haunts of the clever knaves who love to wear good clothes and figure as men of leisure and wealth. Recently there has been an unusual number of hotel robberies, but the proprietors do nothing and the police are indifferent. It is well known that the thief will be released after a day or two, unless his victim wishes to pay the costs of an uncertain prosecution, and no one cares, therefore, to waste any time over it. One cause of this is the extraordinary position taken by the authorities that the victim should prosecute and pay the costs. Under such a ruling, not one thief in twenty is punished. The only effective way to repress crime is for the state to prosecute, and there will be no real check upon thefts in this city until that is done. In this also the press can do a good work by agitation. No man's person and property are safe under existing conditions; it is the duty, therefore, of every good citizen to insist upon a reform.

STRANGERS' HOSPITAL.

The paid subscriptions for the foundation of the Strangers' Hospital now slightly exceed 95,000\$, with several subscribers still to hear from. Both of the new English banks have promised liberal sums but the amounts have not yet been fixed. In addition to this a large number of small subscriptions have been promised, but have not yet been secured owing to a lack of time. Enough has been secured, however, for the acquisition of the property and the first necessary expenditures on the building. The plans are now being prepared for these modifications in conformity with municipal regulations, and as soon as the necessary license is procured work will be begun on them.

The subscriptions thus far paid are as follows:

Table listing donors and amounts for the Strangers' Hospital, including London and Brazilian Bank, Edward Johnston & Co., Hard, Kead & Co., Norton, Megaw & Co., P. S. Nicolson & Co., J. H. POLICE ASSAULT.

S. Paulo, 29th January, 1892. To the Editor of THE RIO NEWS: "I am in case to justify a constable." "All hell shall stir for this!"—Ancient Provs. Sir,—I have read with attention the letter addressed to you by Messrs. McNaught, Barham and Templeton, and also that of Mr. Wm. Mayner; and quite agree with the last-named that the thanks of foreigners in Rio are due to you for your spirited article on the above subject. It does not appear, however, that, as a consequence of these complaints, any action is likely to be taken in the direction of punishing the policemen for exceeding their duty, nor of indemnifying the sufferers. Under these circumstances perhaps you will allow me to make a few remarks which occur to me on the matter.

COFFEE NOTES

Two Ceylon planters travelling in Peru write as follows regarding coffee in that country:— "We have seen coffee trees and it thrives at great altitudes, and bears heavily at say 7,000 to 8,000 feet. If our aeroids have kept right, as I think they have, for they agree closely with a boiling point barometer 1 m using."

During the fiscal year 1890-91 the import price of coffee has ruled higher than in any of the ten years preceding. In 1880 the average import price was 14 cents per pound; in 1883 it was 8 cents, and continued at about that figure until 1887 when its price was 11 cents; in 1888 it was 14 cents; in 1890, 16 cents; and in 1891 the price was 19 cents.—St. Louis Globe.

LOCAL NOTES

There were issued last year 41 caveats for inventions.

During several days last week the war vessels in this port were held in readiness.

The minister of finance has issued orders for increasing the storage room in the Santos custom-house.

It is reported that Arelides the Just is going to establish a newspaper. How his enemies will rejoice!

The government has approved the schedule of the U. S. & Brazil Mail S. S. Co. for the present half year.

The minister of finance has telegraphed to São Paulo urging the immediate execution of measures for the relief of the port of Santos.

Affairs in São Paulo have again calmed down, the heroic Dr. Barreto having shown that he was actuated only by a desire to save the governor from personal violence.

As our municipal fathers seem determined to establish public laundries, why not buy those which the Buenos Aires fathers have grown weary of? It will make the failure less expensive.

It is stated that the ministers of agriculture and war are not on good terms, and that the latter consented to retain his portfolio for a time only at the earnest request of the ministers of the navy and interior.

Councillor Mattoso dos Santos, Portuguese minister on special mission, left for Portugal on the 28th ult. On the day before his departure a farewell dinner was given him by some of the Portuguese residents in this city.

The municipal council of this city has judicially resolved to transfer carnival to the 26th, 27th and 28th of June. This measure depends on the approval of the minister of interior, which, it is to be hoped, will not be withheld.

A decree of the 30th exonerates Gen. José Simões de Oliveira from the office of minister of war. Until a successor is appointed the duties of that office will be attended to by the minister of marine, Admiral Custodio de Mello.

The many old friends of Dr. Carlos A. Morsing will deeply regret to hear of the untimely death of his only son in this city on the 28th ult. He was a young man whose abilities and training as a civil engineer gave promise of a brilliant and useful career.

We hear that the police assault on the three young Englishmen recently noted in these columns, has been brought to the notice of the Brazilian government, by Her Majesty's representative, through the medium of the minister of foreign affairs.

The municipal council of this city has passed an ordinance, subject to the approval of the minister of interior, requiring bakers to sell bread by weight to such of their customers as demand it. The victims leaves have now become so small as to require a magnifying glass to inspect them.

A Juiz de Fora telegram of yesterday says that four important manufacturing establishments of that place have been compelled to close their doors because of the failure of the Central railway to bring them materials required. By this act about 700 operatives are thrown out of employment.

It is stated that the government does not see its way to complying with the wish of D. Henrique Solano Lopes to obtain the album presented to his father, the dictator of Paraguay, by Paraguayan ladies. That album, which was captured during the Paraguayan war, is now at the public archives office. The government may burn its records of emancipation, but in regard to the proposition to give up that album—never!

A disagreeable incident occurred in the department of interior on the 28th ult. Dr. Uchôa Rodrigues, deputy for Amazonas, entered that department without removing his hat, and this, being contrary to usage, led to some words between him and the director-general of the department, Dr. Cappellino do Amaral, which resulted in the congressman drawing a pocket-knife. The bystanders interfered, and Dr. Uchôa Rodrigues, after addressing the director-general in insulting language, left the department.

The Journal of the 31st ult. devotes a column or more to a reproduction of the Fortnightly Review's adverse criticism on the administration of justice in the United States. The editor of the Journal must know that such generalizations are most unjust. The man who says that there is no judge without his price and that the administration of justice in the United States is a scandal for the human race, shows too much animus for such a criticism. Those who know the facts, know also that his statements and conclusions are false.

President Floriano Peixoto has signed the law regulating extradition between the states.

The electoral law was signed by President Floriano Peixoto on the 26th ult. This law is numbered 35.

Dr. Antonio Joaquim de Macedo Soares and Dr. Espiridão Eloy de Barros Pimentel have been appointed judges of the Supreme Court.

Barão de Lucena and Councillor Araripé, judges of the Supreme Court, have been placed on the retired list. It is thus that virtue secures its reward.

The number of buildings now in construction in this city is estimated at 10,000. The estimate, however, is very much exaggerated. One-tenth of that number would cover the bill.

Pardal Mallet says that he can not tolerate Gen. Floriano, because the latter is not esthetic. He thinks that Gen. Deodoro is esthetic and that consequently he deserves to be tolerated.

Barão do Rio Apa has obtained a leave of absence and insists on resigning the office of adjutant-general of the army. It is reported that he will be succeeded by Gen. Conrado Niemeyer.

The minister of justice has appointed Dr. José da Rocha Leal chief of police of Bahia. Does ex-Senator Silveira Martins or any one else still think that the republic is not sufficiently centralized?

At the office of the chief of police: "What has this man done?"—"Circulated alarming rumors, Your Excellency."—"What did he say?"—"He is my tailor and threatens to send me my bill in a few days."

Admiral Wandenbolk, it is stated, has taken a little trip to Minas. Is the redoubtable Gen. Cesário then to meet his fate at the hands of his old colleague? The times are certainly out of joint when a sea-faring man becomes arbiter of the destinies of a state without a port.

Scene: office of chief of police. Enter patriotic citizen lugging after him a distinguished citizen with a very large head.—"What crime has this man committed?"—"Circulated alarming rumors, Your Excellency." Says he is going to withdraw his resignation and make another speech as soon as the Senate meets next May."

A merchant from Capanga, S. Paulo, has made complaint that on the night of the 25th ult. he was robbed by seven policemen of \$500 in money, watch and chain, handkerchiefs, ornaments and even his shoes. The robbery was committed in a street near Largo da Sé, that is, in the very heart of the city.

Our old friend Jones writes to us to say that he desires to be a good citizen and to perform faithfully his duty of denouncing before the chief of police all citizens guilty of alarming rumors, but that in these days when the mercenary stars at every point above go in the shade and loudly blare make a man shiver, (ah! not with cold) *crimen dignitate suprema lex est*. He consequently hopes that the chief will complete his wise measure by placing at his (Jones') disposal one of those reports that come down the River Plate. If the chief will do this and be reasonably liberal in the matter of free lunches and hot drinks, Jones undertakes to keep him well supplied with circulators of alarming rumors.

The following story is told us. If true, and we have no reason for doubting it, it needs no comment. One week ago, Sunday, a ship-chandler's clerk brought ashore to his boat from an American ship the corpse of a sailor. He took it to the morgue, where he was told it could not be received without an order. He returned to the American consulate as usual on Sunday, but could not get the order. He was then advised to go to the general police station and a permission was given to leave the body inside until his return. At the station he was told that the official was out who could grant the order, but that as soon as he returned the order would be made out and sent down. With this assurance he returned to the morgue, where he found that the body had been removed to the sidewalk in front of his shop, a place of business, where it remained for three hours in the torrid heat of that day!

The new chief of police of this city has published the following notice:—*To the head of the Federal Republic*.—It being necessary for the government to act with the utmost vigilance and vigor for the purpose of maintaining order and preventing disturbances and checking the circulation of elements of anarchy that have proved so detrimental to vital interests of the nation, the acting chief of authority and even individual liberty. I call upon the patriotic and law-abiding citizens of this Republic to aid in the work of maintaining order in that of restoring order, in which the public interest is engaged. One of the principal causes of the prevailing state of anarchy is the circulation of alarming rumors, spread by the false imagination of malignant and ignorant people, the idle and credulous, and I therefore call upon you to aid in the work of maintaining order and removing the impression thereon, but also to bring before me persons that circulate them, so that I may make inquiries and adopt such ulterior measures as the case may demand. If all good citizens will follow this injunction, it will be easy to extinguish the disturbing causes, for I can then reach the origin and comprehend the nature of reports circulated and the incoherence will learn to weigh their words, when they speak of serious matters, fraught with interest to the public well, to commercial and industrial peace and to the tranquility of families and of citizens.—(signed) Manoel Martins Torres, chief of Police.

It is stated that the municipal council has spent \$50,000 in its efforts to supply this city with cheap beef.

Sergeant Silvino was removed on the 29th ult. from the fortress of Santa Cruz to the marine hospital. His wound is said to be doing well.

The minister of justice has telegraphed to the president of Amazonas ordering him to annul his decree establishing martial law. Two illegalities are thus scored!

The municipal council has decided to restore to the streets their old names. Now if they will allow the matter to remain at this, it will be a great boon to the suffering people.

Col. Brandão, ex-commander of the police force of the state of Rio de Janeiro, who had been arrested for supposed complicity in the mutiny at the fortress of Santa Cruz, was set at liberty on the 29th ult.

The bishop of Rio de Janeiro has written to the minister of interior asking him for the images removed from various public buildings to the Academy of Fine Arts by order of the municipal council. He avails himself of the occasion to say that he divided each into two wagers on images by the municipal council will contribute to increase the love of Catholics for republican institutions. It might also be said that their presence in the Academy will not contribute much toward a love for art.

A letter of Dr. Ferreira de Araújo from Paris criticizing the telegrams of the *Jornal do Commercio* in regard to the Emperor's death, has led to a very acrimonious discussion between that paper and the *Gazeta de Notícias*, of which Dr. Ferreira de Araújo is editor-in-chief. The latter had endeavored to show that the statements made in the telegrams were not correct and that they were made in the interests of sensationalism.

By the new electoral law the states of Amazonas, Espírito Santo, Goyaz, Matto Grosso, Parahyba, Piahy, Rio Grande do Norte and Sergipe will each constitute a congressional district. The states of Maranhão, Alagoas and Pará will be divided each into two districts, and Ceará and the Federal district each into three. Pernambuco, Rio Grande do Sul and Rio de Janeiro will have five districts each; S. Paulo and Bahia seven each; Minas Geraes twelve. Every district will elect from three to five congressmen, according to its population.

MARKET REPORT.

Rio de Janeiro, 1st February, 1892.

COFFEE.—We have had a fairly active week, the last three days showing sales of nearly 100,000 bags, and prices were advanced on Saturday by about 400 rs. per arroba on all qualities.

HEAVY RAINS.—Heavy rains along the Central railway line have further interfered with traffic; there has been no entire interruption, but quite sufficient to reduce the receipts by the line to about 26,000 bags for the week; a very disappointing occurrence, with the uncertainty in the exchange market.

SHIPMENTS.—Shipments have been satisfactory, 53,000 bags for the week, and stocks are reduced by about 26,000 bags. At the close on Saturday there was supposed to be business still pending, but dealers were very firm in their pretensions and its realization depended largely on how exchange is to rule today.

THE SHIPMENTS SINCE OUR LAST REPORT HAVE BEEN: 72,532 bags for the United States 6,124 " Europe 3,777 " Cape of Good Hope 3,777 " Elsewhere 81,952 bags.

THE VESSELS CLEARED WITH COFFEE ARE: United States: 30 New York Br str Capulet, 16,513 30 do Big str Kipler, 23,276

Europe: Jan. 23 Mediterranean Aust str Pollice, 15,990 25 London Br str Capite, 250 25 Have Fr str Concordia, 31,248 26 Bordeaux Fr str Equator, 9,984 28 Hamburg Ger str Cintra, 4,454

Elsewhere: Jan. 28 River Plate Fr str Matapan, 17,523 Receipts for the past week were 71,111 bags, against 69,609 bags for the week before and 73,181 bags for the preceding week. Receipts in Santos were about 69,000 bags, for five working days.

STOCKS.—There was this morning estimated to be 222,333 bags in all hands, of which perhaps one-half is awaiting shipment. The market is firm at the following quotations:

First-Class Investment.

FOR SALE.

The "Compañia Agricola de Pôrto Alegre" of São Paulo is prepared to receive tenders up to the 24th February for the purchase of a farm with 500 hectares (about 1,200 square acres) of superior land within a mile of a railway station with covered good water, numerous and cheap freights to the capital of São Paulo.

There is already a small area of *alfalfa* (lucerne) planted, a good extent of land once ploughed and ready to cross-plough and sow immediately; the best season being between the months of February and July.

It has been positively demonstrated that all classes of foreign fruits and cereals produce abundantly on this land *alfalfa* giving from 1 to 5 cuts annually for 5 to 6 years.

Besides the land, the property consists of ranchos, mules, working oxen, seven mowers, horse rakes, harrows, ploughs, rakes and lances and implements for sowing over 100 acres, in fact everything necessary for the continuation of a large farm on a large and lucrative scale, close to a ready market.

The effect of the sale is the difficulty in calling up more capital for a speculative or capitalist it is a sure investment.

A Tonic

A most excellent and agreeable tonic and appetizer. It nourishes and invigorates the tired brain and body, imparts renewed energy and vitality, and enlivens the functions.

Dr. JAMES BLACK, L. R. C. S., Primrose Hill, Cockburnspath, Scotland, says: "As a nerve tonic, I know nothing like it. It gives me great satisfaction."

Dr. THOMAS DAVIDSON, L. R. C. P. & S., Gosforth, Newcastle on Tyne, says: "I find it an excellent tonic in cases of mental anxiety induced by over-study in clergymen and others."
