The question of determining just how and when martial law may be declared, which is now occupying so much attention in Congress, is without doubt urgent and important, but is there not danger that errors in Congress, is without outsit tigent and important, but is there not danger that errors equally perilous to the country may be committed by going too far toward the other extreme? There is a tendency to forget that the President is only a temporary executive, elected at short intervals, restricted in power and subject to impeachment. Congress is seeking to protect itself against this official as though he were a king, having absolute power and seeking to subvert the liberties of the people. This may be the case where the President assumes dictatorial authority, but even then legal restrictions are sure to prove futile. Such an act of aggression on the part of the President can only be met by forcible resistance outside of the constitution and laws, and it is best, therefore, to leave it wholly outside of legislative consideration. In a representative government such as Brazil aspires to be, it is best to assume that the President will always be patriotic and law-abiding, and to seak by all means to extrantibe his head. always be patriotic and law-abiding, and to seek by all means to strengthen his hands

for the maintenance of order and the execufor the maintenance of order and the execu-tion of the law. If Congress wishes to retain all power for itself and to make the Fresident a mere figure-head, then it is best to dispense with that official altogether. In our opinion, the right to declare martial law should be restricted to times and places of actual armed resistance, and then only when civil processes are impossible. A conspiracy or a petty street disorder should never be allowed as an excuse for declaring martial law, nor should such a state of affairs be law, nor should such a state of affairs be continued beyond the day when such armed resistance ceases. The spectacle recently presented in Buenos Aires, that of keeping a city under martial law for weeks in times of peace and order, is something that should be strictly prohibited. On the other hand, the restrictions proposed by some members of Congress are equally censurable. To specify that martial law can be declared only when 10,000 men are in arms, is an abspecily that martial law can be declared only when 10,000 men are in arms, is an absurdity. The observance of such a restriction would be a premium on partizan revolutions, and would soon make Brazil as turbulent as Mexico used to be. It should be assumed that the President knows best when martial law is necessary, and he should be held strictly responsible for the discretion exercised. Then, aside from this, the immunities demanded for congressmen are absurd in principle and dangerous men are absurd in principle and dangerous in practice. Why should a congressman not be held responsible for his acts just like any other citizen? Why should he be permitted to break the laws with impunity and in defines of constituted authenticity. and in defiance of constituted authorities and in defiance of constituted authorities r There was once a reason why such immuni-ties should be demanded by legislators, the time when they were struggling against monarchs for the liberties of the people and the rights of popular representation; but it is a manifest absurdity to claim such immunities for criminals and common malefactors. In Congress to-day there is a man accused of an infamous crime—a crime that in Great Britain would at once crime that in Great Britain would at once force him to resign his seat—and yet the prosecution of this knave was prevented by a formal resolution not to permit the courts to take action against him. Then, too, there are others who are publicly known to be guilty of frauds, breaches of trust, swindles, and all that, who are not only protected from arrest but are permitted to continue their swindling, operations and to protected from arrest but are permitted to continue their swindling operations and to legislate for their own benefit and protection. In justice there should be not one single immunity granted to such men. If the representatives of the people cannot find moral courage enough to expel such men from the legislative chambers of the nation, than the effects of the later should be the rest. then the officers of the law should be per-mitted to come in after them. There should be no place so sacred that a criminal can find protection in it against the penal-ties of a just and common law.

Mucн has been said in Congress during the past week of the policy of restricting the coasting trade to vessels flying the national flag, the prevailing sentiment being that such a policy will be a benefit to the coun-try. We presume that no one will contest the assertion that the greatest benefit to the country is that which confers, or secures, the most substantial benefits for the greatest the most substantial benefits for the greatest number of people—and this certainly can not be said of the prohibition now imposed on foreign vessels from engaging in the coasting trade. This trade, which is far from unimportant, is suffering from a lack of tonnage and from excessively high freight rates. It costs more to send a barrel of flower or a cost of prochadding from this rates. It costs more to sent a barrer of flour, or a case of merchandise, from this capital to any port on the coast, than it does to bring the same articles out from New York, Liverpool, or Hamburg. We have heard of instances where it has cost three times the freight out from New York to send merchandise down to Santos. From the programmer of the control of the c send merchandise down to Santos. From our own experience, and from the experience of others, we know that the difficulties in shipping small parcels on the national coasting lines are almost insuperable. Not only are the rates charged almost prohibitive, but the obstacles imposed, the inertia encountered, the formalities thought reencountered, the formalities thought requisite and the profound ignorance prevalent in regard to the simplest details, are enough to dishearten and repel even the most patient of merchants. We do not forget the two or three foreign lines, running under the national flag, where the business is better managed and efforts are made to really accommodate the public, but as these are able to cover only a small part of the traffic, the relief they offer is after all very limited. The lines from which the public has a right The lines from which the public has a right

to expect courteous treatment and lower freights are those belonging to the subsidized freights are those belonging to the subsidized company whose steamers run from the upper waters of the Amazon along the entire Brazilian coast and up the La Plata and Paraguay to Matto Grosso. If the advocates of restriction are sincere, they ought to be able to show some benefits from this gigantic monopoly in whose interests this prohibition was enacted. This, however, can not be done. The monopoly pays no dividends because of wasteful and bad management, and the country gets far less benefit in transportation rates and facilities that when foreign vessels were allowed to comm transportation rates and facilities than when foreign vessels were allowed to compete. It is a veritable burden upon the whole country and offers not one single advantage in return. In view of the industries crippled by these excessive charges and the losses to business and to the public through the enhanced costs of products and merchandise because of these excessive freight charges, the conclusion must be that the restrictions imposed upon the coasting trade are grievous burdens to the people and a serious obstacle to the development of trade and industry.

OUR FIRST CASE.

THE STRANGERS' HOSPITAL 3rd June, 1892.

A. I. LAMOUREUX, Esq. Editor of THE RIO NEWS.

Editor of THE RIO NEWS.

MY DEAK SIR,—The first operation at the Strangers' Hospital was successfully performed on the 30th ult. by Dr. Alfredo Barcellos, delegado de hygeines, viz.: amputation of the thumb and forefinger of the left hand of Mr. Callander's little boy, who blew off those and injured the middle finger with a detonating cap which he naughtily appropriated and exploded whilst the worknen were away at breakfast. The operation was assisted by Dr. Sobral of the S. João Baptista Hospital, and by Dr. Armindo Lima, and the patient is in good health and the wounds quickly healing. All of these doctors expressed their approval of the remarkably advantageous situation of our Hospital.

I am, dear Sir.

I am, dear Sir,

Yours very truly,

R. J. CALLANDER.

the Clevetand Leader, April 28th. BARBOSA ON BRAZILIAN RECIPROCITY.

The long attack Barbosa, the former Brazilian minister of finance, has made upon the reciprocity treaty between the United States and that country, has been discounted in advance, and the Democratic attempt to make political capital out of it will amount to nothing. In substance, the charges made by Barbosa are that the Brazilian minister to this country, Dr. Salvador de Mendonça, had no authority to make a reciprocity treaty which did not expressly bind us not to grant like concessions to any European power, and that as Mendonça did not carry out his government's instructions and a new cabinet on the spur of the moment ratified the treaty, it therefore is not morally binding and Brazil has the right to revive the subject.

Dr. Mendonça has repeatedly denied the charge that our government used any but the most honorable means in negociating this treaty and with equal emphasis has insisted that he acted on authority in leaving, out such a clause as Barbosa insists ought to have been in the treaty. The instructions Barbosa cites were issued by a provisional government three months and a half before the treaty was promitigated, and the cabinet that gave them was out of power before the treaty reached Brazil. This point, therefore, resolves itself into a question of veracity between Barbosa and Mendonça, with which the United States has nothing to do.

A MERITED ACKNOWLEDGMENT.
A São Paulo friend having called our attention to the services rendered to the English colony in San-tos during the past season by the Portuguese Bene-ficent Society, through the reception and treatment of yellow fever cases, we wrote to a friend in Santos in regard to the matter and for the purpose of ob-taining facts for a public acknowledgment of the services so thoughtfully and generously rendered. We are glad to record that our Santos friends have tendered a fitting acknowledgment of this inestimservice, as will be seen in the following address, subscription and correspondence:-

able service, as will be seen in the following address, subscription and correspondence:—

SANTOS, 2nd June, 1892.

Dear LAMOUREUX,—By the enclosed list of subscribers and address presented to the Benificencia Portugueza you will see what we have done in turberance of your suggestion of 21st April. I wish on behalf of the Santos residents to thank you for the suggestion of a public acknowledgment to the Benificencia, as, although we all feel very grateful for the kind treatment of our sick, the idea had not occurred to us to make such acknowledgment. There have been altogether some 14 of our countryment retated there, of whom 5 died. The survivors all speak in the highest terms of the kind treatment they received, and from personal observation I can endorse that. The institution is in a fourtishing state and some months ago opened a new wing with about 12 or 4 nice airy rooms for the reception of patients who pay for their treatment. It is in this wing that the bulk of our countrymen have been received.

You will see from the number of signatures (66) to the address, that all of our colony have shown their appreciation of the kindness of the directors of the Benificencia. The institution is in no need of money; in fact, I am given to understand that they have more than they know what to do with already, and do not care about receiving more, or we should have given a much larger sum. The only objection we have had to the subscription last is from several people who think we ought to have given a much larger mun. Mr. Baillie, whose idea it was to get up the subscription and personally canvassed for it, says he never saw people come forward so really with their contributions.

Very sincerely yours,
Wh. FLETCHER, JUNR.

THE ADDRESS AND SUBSCRIPTION.

To the Directors of the Portuguese Benificencia Hospital in Santos

Portugueu Élomicioneia Hospital in Santos, We, the undersigned British and American residents of Santos, sincerely grateful to you for your charitable and generous treatment of many of one fellow-countymen during the late epidemic of yellow fever, desire hereby to publicly express our appreciation of your great kindness and humanity, and to heg your acceptance for the use of the "Benificencia" of the accompanying small sum (Rs. 1,065\\$000) subscribed principally by the younger members of our colony, as a slight token of our heartfelt gratitude to you, the worthy directors of the above admirable institution.

THE RECIPROCITY QUESTION.

The New York Hendl of April 26th contains the following official denial of the absurd charges made here in Brazil to the effect that Secretary Blaine had agreed not to make similar treaties with other countries in case Brazil entered into a reciprocity treaty with the United States:

SECRETARY BLAINE, MINISTER MENDONÇA AND GENERAL FOSTER CONTRADICT BARBOSA.

WASHINGTON, D. C., April 25, 1892.—General Foster, of the state department, who assisted in the reciprocity negotiations with the Brazilian government, said this afternoon there were several errors in the despatch from Rio de Janeiro concerning the reciprocity agreement with that country, the principal one being that this government had pledged itself not to make a similar agreement with any furnogeneral procernment.

the principal one being mu insignermous melledged itself not to make a similar agreement with any European government.

"Senhor Mendong," he said, "has frequently denied the correctness of that statement himself. The United States never were asked by Brazil to make such a promise, and focurse, never made it. Moreover, we could not have legally made such a promise, for the reason that such action would have been in direct conflict with the reciprocity provisions of the tariff act."

and he returned it with the simple remark that it was correct.

When the despatch was shown to Senhor Mendone, the Brazilian minister, he said that he had already denied similar statements emanating from ex-Minister Barbasa. There was nothing in the correspondence between the two governments to sustain his statements that the United States had promised not to make a similar agreement with any European government. Senhor Mendone, said that these reports were being circulated by the enemies of the present government solely for political purposes. He added that he did not care to make any further statement on the subject, as he was perfectly content to let the correspondence which had been published speak for itself.

LEGISLATIVE NOTES

May 28.—Senate,—Senator Amaro Cavaleanti introduced a bill regulating the declaration of martial law. This bill provides that martial law shall only be declared when there are 10,000 men in arms against the government. The faculty of declaring martial law belongs to Congress; but, when this body is not in session, the executive may, in cases of imminent danger to the country, declare martial law. Congress will then meet as specifily as possible to take action on the matter, and the government, within 48 hours after the meeting of Congress, must give it full information in regard to what has occurred. Senator Virgilio Damasio introduced a bill on the same subject. Senators Elyseu Martins and Rosa Junfor spoke on the question of the filling of Gen. Floriano's seat in the Senate. The former moved an amendment to the resolutions reported by the committee on the constitution. The latter censured the action of the governor of Alagoas, who, he says, will be responsible to his state if the place is not filled. Chamber of Departies.—A message was received from the Vice-Prosident asking Congress to authorize the issue of bonds to the maximum amount of 60,000,000 for the purpose of ading trade and industry. Deputy Vinhaes spoke on the workingmen's petition presented by Departies questions, but he desired to remark that the authors of the petition had no right to speak in the hance of workingmen, and he was unwilling that the latter's interests should serve as a weapon against the government. He could prove, he said, to find, 20,000 had been offered to workingmen to induce them to nurder the President of the republic. On the motion offered in relation to the repressive measures adopted by the government towards persons accused of conspiracy and sedition, speeches were made by Deputies Alcindo Guanabara, Cassiano do Nasciento and Nilo Peçanha. The latter asserted that a congressman had endeavored to cause President Floriano Peixot to be murdered by one of his orderlies.

the native assertion that a congession had the deavored to cause President Floriano Peisoto to be murdered by one of his orderlies.

MAY 30.—Souate.—Senator Theodureto Souto complained of the delay of the committees on the constitution and legislation in reporting on the amnesty bill. Senator Campos Saltes said that the committees are examining documents furnished by the minister of justice. The Senate voted the resolutions in regard to the election in Alagoas with the amendment of Senator Elyseu Martins. The report against holding a presidential election was attacked by Senators Virgilio Damasio and defended by Senators Elyseu Martins and Rangel Pestana. Chamber of Deputies.—Deputy Archar Rios offered a motion in regard to the declaration of martial law. This motion asks the government to furnish information in regard to the declaration of martial law. This motion asks the government to furnish information in regard to the declaration of martial law. This motion asks the government to furnish information in regard to the motives for suspending guaranteeers a speedy guther repressive means committee on the constitution. Deputy Aristides Lobo, in the name of the majority, and Deputy Cassiano do Nascimento, on behalf of the opposition, declared that they accepted the motion, which was then passed by the almost unanimous vote of the members present.

JUNE 1.—Senale.—The Senate by a vote of 27 to 7 passed the resolution declaring that Vice-President Priorian Defeots should continue to act as President till Nov. 15th, 1894. Chamber of Deputite.—Deputy Lette e Officies appeals on the subject of the Jean made by the government, out of the gold deposits in the treasury, of the sum of 2,500,000 to banks of issue. He says that Visconde de Gualy is worthy of a better place than that of president of the Banco da Republica. The new board of directors, he thinks, can only accomplish one result—that of declaring the bank insolvent. He offered a motion asking for information in regard to the loan, and also for a statement of accounts between the government and banks and a copy of the order for depositing government money in the Banco de Credito Universal. Deputy August de Freins offered a resolution signed by himself and 48 other deputies declaring that the criticens accused of conspiracy and selition should be brought to trial before the competent courts and asking the government to put an end to the exceptional measures adopted by the decree of April 17th. Deputy Vinhaes spoke on the Senate bill on coast navigation. He opposes substities and favors restricting coast mavigation to national vessels. The committee on petitions reported against granting a leave of absence to Deputy fails over the had health which alleges.

JUNE 2.—Senata,—Senator Braz Carneiro calletenion to a telegram from Vassoursa in regard

Deputy Almédia Nogueira spoke in answer to the preceding speaker. He denied that pressure had been used in the S. Paulo elections. The number of votes cast, he says, was 29,240, or nearly half of the total number of voters in the state.

JUNE 3.—Stante.—Senator Brat Carneiro, again referring to the Vassouras Caixa Economica, said that according to information that he had received, the deposits had been removed to this city. It is evident that depositors of small sums cannot under; othe trouble and expense of a trip to this city, which, with the delay here, would consume three or more days. He accordingly asked the minister of finance to adopt some measure for the relief of these people. Senator Domingos Vicente offered a motion for asking why traffic had not been established on the Campos and Carangola railway. The Senate voted in 3rd discussion the bill ratifying the arbitration treaty made at Washington between the governments of the United States, Bolivia, Ecuador, Guatemala, Haiti, Honduras, Nicaragua, S. Salvador and Brazil. The two bills on martial law were voted in 1st discussion and referred to the committees on the constitution and legislation. Chamber of Deputits.—A communication was received from the minister of justice, stating that the government will send the documents relating to the committees on the constitution and legislation. There was received a petition from the Associação Commercial of Santos in regard to the tobacco tax. Deputy Tosta introduced a bill on the national quard. The Chamber approved the S. Paulo congressional elections and recognized as deputes chicinana of praga, Julio de Mesquita, and Brazilio dos Santos. The bill for widening and extending Rand e Go qalves Dias was voted in 2nd discression. Dep ties Baptista da Motta and Oiticica sp ke in favor of restricting the coast trade to national vessels, and Deputy Arthur Rios spoke against it.

The Bank of Cordoha had a paid-up capital of 20,000,000 dollars, nominally £4,000,000 sterling, and the whole of the money was given out among 68 persons. We have a similar report regarding the state bank of Salta, large sums having been lent out to "young ladies." As regards the Provincial Bank of Buenos Aires, the balance-sheet of 30th April is truly deplorable. Bad debts (including 14 millions due by the Mortgage Bank and other official debts) have risen from 63 millions in March, 1891, to 96 millions in Mortgal, 1802—say £6,000,000 sterling. Meantime the bank owes depositors 79 millions, or nearly £5,000,000 sterling, and the certified cheques are selling at \$5% discount.—Buenos Aires Slandard, May 21st.

It appears that he was taking his wife to his house last Sunday, the two riding in a cart, and when passing the house of the juze de pac (magistrate), naturally suspecting nothing, this legal officer came out of the doorway with a soldier, to whom he said, "I wonder if I can hit that fellow," whipped out his revolver and fired, shooting the unfortunete man in the chest, killing him instantaneously. Luckliy, the criminal was caught and the colonists were with difficulty persunded from lynching him. He is now awaiting trial. The body of the dead man was buried next day, all the colonists attending. The Paraguayan authorities were frightened out of thehoots, and the citizens maked to the river-side to see the set-to; but they were disappointed. The Brazilian record of bloodless battles and revolutions is not broken yet. The very latest in reference to this queer affair is that the rebel gunboat, the Inticidava, surrendered to that of the government, the captain subsequently asking the Brazilian minister's permission to go back to Matto Grosso and challenge Governor Barbosa to mortal combat to prove that he (the captain) did not surrender through cowardice! Their account of the disaster adds little to what is already known. The vessel was sailing on the 19th instant nfair weather, the Polonio lighthouse was sighted at 6 p.m. and her helm was turned towards the light. Three hours later she struck on the rocks at Punta Negra of Castillos. She began to make water fast, so the crew was ordered to the hoats and the fires put out. Great confusion prevailed when there was a loud explosion and the vessel soon disappeared from sight. No officer was their boat, and they had great trouble in making land in the dark, owing to rocks and high waves. They were also pursued by sharks! ARGENTINE RAILWAYS.

ARGENTINE RAILWAYS.

In his recent message to the Argentine Congress, President Pellegrini has the following to say in regard to the railways of that country:

"When the crisis came on, it became clear that the government, which had been for many years paying heavy guarantees on railways, could not continue doing so any longer. The concessions referring to such guarantees had in most cases stipulated that the lines were to be worked at 50 or 5g per cent, of the gross receipts. But all this had been glossed over and forgotten, and the companies managed to get their guaranteed interest without fulfilling their part of the compact.

It was stipulated in the railway concessions that they were to return in one form or other a portion of what they received for guarantees to the national treasury out of their receipts. They have never yet returned a copper. Many of them have earned much more in excess of the guaranteed interest, but never yet has any guaranteed railway in Argentina paid one farthing into the treasury in fulfilment of their solemn stipulations. Meantime the Argentine government has paid to these railways no less than \$2,3,00,000 sterling, but they have unlawfully retained the money.

If we can compet the companies to fulfill their obligations under this head the amount for which the state is liable in 1892 will be reduced from \$1,000,000 to \$500,000 sterling.

We have cancelled since last session of Congress a number of railway concessions, involving guarantees altogether amounting to \$6,000,000 sterling.

LOCAL NOTES

—A local colleague says the government will send Dr. Erico Coelho to the Gynecological Con-gress to meet in Brussels. Stuffed?

—On Thursday the actors of the Sant'Anna thea-tre paraded the streets soliciting contributions for the families of the officers and men who perished on the Solimões. They collected 3,344\$500.

—The president of the municipal council failed to attend the meeting of that body on the 2nd inst. The members present protested against his absence and informed the minister of the interior of their

—That idea of the chief of police to catch foreign thieves and vagabonds and send them out of the country, is susceptible of improvement. The chief might catch—and hang them—and the whole matter would run smoothly.

—On the 2nd, 23 deputies signed the project of a law permitting each state to introduce such immi-grants as it considers advantageous. We knew it. Rio wants coolies, Bahia wants Africans, and the other states want whatever they can catch.

—A boy was found to be in possession of three dynamite bombs a few days since, and was sent to the chief of police to give an explanation. He declares that the bombs had been given him by a soldier, who charged him to keep them for a fishing excursion.

—On the 31st ult. the Jornal do Commercio noticed that Sr. Coriolano de Oliveira had gone on government duty to Goyaz. The Jornal gives no explanation why Coriolano's departure was made so prominent, but it may be assumed that the opposition will offer up prayers that Coriolano may serve as a breakfast for some bugre.

—It is to be feared that the Chamber of Depu-ties does not quite understand the case of ill health alleged by Deputy José Avelino. It is a case of bankrupt aspirations complicated by unrealized financial expectations. The deputy went away as soon as the political weather changed last Novem-ber 23rd and can hardly be fully restored to health and vigor as yet.

—With great moderation, the Jornal do Com-mercio on the 31st calls "a curious story" that of the purchase of certain real estate from a religious body for 25,000\$000, its re-sale to a "mobile" bank for 1,000,000\$, and a present proposal to again sell it—this time to the government—for

—By an aristo of the 31st ult, the minister of justice authorizes the chief of police to deport hay foreigner whose presence here is considered perilous to public security, but in such cases notice must be given to the consult at this port of the nationality to which the accused belongs, so that he may present reasons for suspending the order in case such can be presented.

—The Polytechnic School was the recipient, a few days since, of a bequest from Dr. Carlos Alberto Morsing of 10 Apolice, of the value of 1,000\$ each, for the purpose of presenting annually a gold medal, valued at 120\$; to the student who graduates in the head of his class in the course of civil engineering. Dr. Morsing also presents the first edition of a book of travel written by his son, recently deceased, who was a graduate of that school.

—The banks rather "played" the market on the 4th. As Brazilian currency has no value, save that fixed by the speculators in exchange, the banks tried to find out what the ideas of these arbitrators of exchange were, and posted 11d. on London. But 11d. did not seem to fit the speculative pocket and the result was the coffee market was paralysed, to prevent a supply of bills that might have upset the speculative bucket. It appears that 1\$000 is worth a triffe more than 11d, sterling.

—An Asuncion telegram of the 3rd reports a fight near Cuyals, Matto Grosso, between the federalist and revolutionary forces, which resulted in the defeat of the latter. The fight is said to have been a sangulanary one. Owing to the distance of Cuyals from Asuncion, the lack of communication and the absence of details, these reports must be accepted with considerable reserve. In all probability we shall know very little of the Matto Grosso revolution until it is all over and someone writes its history. its history.

—We hear that the Chicago commission pro-poses to make Manoel Buarque de Macedo its treasurer. Surely this must be a mistake! A man against whom most serious charges are preferred in the public press and who is constantly obliged to defend himself against open accusations of mis-appropriation of funds, breaches of trust, etc., is hardly aft person to represent Brazil at Chicago and to have control of a large amount of public funds. The government surely might find a better representative.

Detter representative.

—On the evening of the 2nd inst, the chief of police sent to Nietheroy a force which, with the assistance of the state police, captured a hand of og gypsies, who were encamped near that city. It is stated that these gypsies had arrived eight days before from Pernamhuco, receiving passage as immigrants, and that since they have been here they have been systematically engaged in robbery. There was found in their camp a considerable sum of money and a large quantity of jewelry and other property, the value of the whole being estimated at 130,000\$.

—A sample of administrative ability. On the 25th ult, the minister of finance asked the minister of agriculture where the commission, to stimulate immigration to the northern states under the leadership of Major Gabino Besouro, was bound. The major serves gratuitously, but there are two engineers on the committee with salaries of 1,500 % a month each, and a secretary with a salary of 1,000 %; total 4,000 % per month. The finance minister further appears to be in doubt whether one of these 1,500 % per month engineers is not a fiscal on the S. Paulo railway system.

on the S. Paulo railway system.

—We are advised that Mrs, and Miss Quayle are making preparations for a Bazaar to be held at their residence, 12A Praia do Russell, some time next month, in benefit of the Strangers' Hospital. Contributions for the Bazaar will be thankfully received by the ladies who have so hough tight and generously initiated the good work, and we feel certain that a liberal response will be given. There is much that the ladies can do in support of the Hospital, and every effort of theirs will be most heartily welcomed. We trust that the Bazaar will prove a success in every particular as well as a source of pleasure to those taking part in it.

source of pleasure to those taking part in it.

—Another great financial light extinguished. On the evening of the 1st inst. the Conde Sebastião Pinho, president of the Banco Paris e Rio, was arrested and confined in the police barracks to answer charges of shareholders in the Empreza Industrial e Colonizadora that he had, as incorporator, misappropriated the funds of that company. He appears to have absorbed about two-thirds of the capital of the company (8,000,000\$\$), exacting payment for lands which the government has given it for colonization. The arrest was made after a rigorian singuiry and an examination of the books. Little by little we are getting an insight into the transactions which have served to scandalize and rob this community for the last two years.

— The Brazilian commission to the Chicago Columbian Exposition is composed as follows: Marshal José Simeão de Oliveira, president, Dr. Ladislão de Souza Mello Netto, vice-president, Dr. Ladislão de Souza Mello Netto, vice-president, Dr. Ladislão de Souza Mello Netto, vice-president, Dr. Adolpho Ascholf, seretary, Drs. Gabriel Osorio de Almeida, Manoel Buarque de Macedlo, Pedro Gordillho Peas Leme, Francisco Marcellino da Souza Aguiar, Innocencio Marques de Lemos Bastos, Paulo Frontin, Barão de Quartin, Antonio Guimañes, Lt.-Com. José Martins de Toledo, Dr. Orville A. Derby, Dr. Benjamin da Rocha Faria, Capt José Maximiano de Mello e Alvim, Drs. Honorio Gomes de Paiva Coutinho, Graciano Alves de Azambuja, João Cordeiro da Graça and Rodolph Bernardelli. Assistants, Drs. Marciano de Aguiar Moreira and Zozimo Barroso. The president will also be accompanied by two military aids. It is said that Gen. José Simeão and Drs. Aguiar Moreira, Zozimo Barroso and Souza Aguiar, and Secretary Aschoff will leave for New York on the Vigilancia.

—The Industrial censures the police for arresting Conde Sebastião Pinho.

-On the 5th there were not a single death from yellow fever, or any other contagious disease.

-It is stated that tenders will soon be invited here and in Europe for the paving of this city.

-We hear that Minister Conger is expected to return to this capital by an early steamer from New York. —We understand that an application has made for space at Chicago for the exhibition of Panorama of Rio de Janeiro.

The Rio commission for raising funds for the erection of a monument to Victor Hugo has sent forward 1,687 francs 50 centimes.

The proprietor of the Cattete kiosque, which was damaged by dynamite a few weeks ago, has recently found another bomb in the same place.

—Buenos Aires telegrams of the 3rd and Monte-video telegrams of the 4th announce the suspension of quarantine on Brazilian arrivals. Similar notices have been made public before but the quarantine still continued.

-The Fornal do Brazil says this morning that the Brazilian consul in Montevideo has advised the the Brazilian consul in Montevineo has anyieth ingovernment that Uruguay has raised the quarantine on Brazilian arrivals. No official notice has yet been received from Buenos Aires.

—The minister of the interior has ordered immi-gration agents abroad to look after the servant class, for Rio needs servants badly. We venture to suggest that the government agents refuse to receive any female servants that are not comely.

The Journal says that it knows that Col. João Barbosa has not been seen at Cayabá, Matto Grosso, or its vicinity, which may be considered a positive contradiction of the recent telegram via Asuncion of a sanguinary fight near that dity, in which Col. Barbosa commanded the revolutionary

—The chief of police has again instructed his sub-delegates to use the greatest diligence in suppressing street-legging. Those who are unable to support themselves are to be sent to the beggars' asylum, while those who can, or who may be suspected of dishonest practices, are to be sent to the house of detention.

—By a decree of the 31st ult. Antonio Augusto de Castilho is promoted from the Brazilian consulate at Valparaiso to the consulate-general at New York, vice Arthur Tisxieria de Macedo transferred to Lisbon. By the same decree José Custodio Alves de Lima, consul at Havana, is transferred to Montreal, Canada.

—We hear that at least one of the Brazilian consuls in Europe is refusing to grant consular accrificates on merchandise shipped "to order," alleging that this common practice throughout the commercial world is contracy to Brazilian law. If we only had a commercial association in Rio de Janeiro this would be a subject for its prompt consideration.

FINANCIAL NOTES

—The receipts of the Santos custom-house in May were 1,971,220\$145 against 1,873,428\$907 in the corresponding month of 1891.

—In the month of March the receipts of the Maranhão custom-house were 179,770\$526 against 116,872\$925 in the corresponding month of 1891.

—In the first quarter of the present year the receipts of the Parahyba custom-house amounted to 93,806\\$396 against 100,725\\$912 in the first quarter of 1891.

—The Banco da Republica has stated through the press that it does not owe anything on account of its deposit in the treasury for guaranteeing its issue of notes.

—Executive decree No. 840, of the 39th ult., makes an appropriation of 10,595\$444 for the payment of judicial and police expenses incurred in Bahia between the 1st and 13th of January.

—Deposits are still being withdrawn from the Banco do Brazil and the Banco da Republica. In May the former lost about 1,500,000\$ and the latter an equal amount. What becomes of the money is a mystery, and requires an explanation.

—The minister of interior has authorized a sup-plementary credit of 125,00\$ for the Senate and 152,50\$ for the Chamber of Deputies, to cover expenses of stenographers and publication of de-bates. It is interesting to note that these credits are granted while the two houses are in session.

—We can see no reason why S. Paulo and Juiz de Fóra should not have custom-houses, or that imported goods shall not be sent to these custom-houses in bond. Let us hope that the dispatch of bonded goods by the Central railway will prove more expeditious than that of duty-paid. It can hardly be less.

maruy be less.

It is announced that the minister of finance will send 200,000\$\(^\frac{1}{2}\) in small notes to the sub-treasury in Goyaa, to be forwarded thence to Matto Grosso, Sending so large a sum of money across country to Matto Grosso implies no slight risk and expense, for a great part of the journey must be through a trackless wilderness.

Trackiess winderness.

—The Companhia Cautareira of São Paulo (water and drainage) has agreed to the proposed sequestration of its property and privilege by the state, and authorizes its directors to either negotiate or refer the question of indemnity to arbitration. The shareholders also approve the refusal of the directors to accept 6,000,000\$ as such indemnity.

—On the 1st the Journal do Brazil published the following extraordinary telegram: "London, May 31.—A great storm is raging on the Irish coast. The house of Rothschild will float a Brazilian loan of two millions to pay the interest on the loreign debt, re-establishing the metallic circulation at the same time." This beats any conundrum that ever we had submitted to us.

Coffee. —The week was quiet, and sales did not exceed 50,000 bags; the irregularity in the exchange market upsetting all calculations as to coffee prices. There was apparently a fair demand at the close and the market has been very steady and closed firm, with some tendency to an advance. Receipts continue about on the same average, and shipments have been satisfactory. Stock shows a smart reduction during the week, and the delay in receiving new coffees must be accided to unfavorable weather, for prices current must be ascribed to unknown be weather, for prices current here should certainly be astifictory to the planters, and at this time last year our supply was considerably larger than at present. The latest published advices from abroad lead to a belief that the position is considered sound, and here some resumption of business is confidently expected.

Imports.

The markets have generally remained quiet. The stock of Flour continues to increase and dealers are selling at about cost of importation; considerable shipments are advised from the United States, where prices are slightly lower, and quotations here are also reduced all around. There have been no recepts of piece: several cargos of Pitch piae are not far off at present. Kerosene and Lard are about unchanged. The receipts of Rice have been very large, and there is still a considerable quantity affoat. "Quotations are \$38000-\$5000 lower than at date of our last report. There is little new in Codfsh, except the arrival of a cargo from Jersey on the 5th. Indian corn has advanced for River Plates and also for the better grades of native. Hay, Turpentine, Rosin and Cement are all unchanged. Exchange has been flat during the week and as we are werned not to expect a near resumption of business in coffee, the possibilities of an advance in rates are not re-assuring.

A most excellent and agreeable tonic and appetizer. It nourishes and invigorates the tired brain and body, imparts renewed energy and vitality, and enlivens the functions.

Dr. James Black, L. R. C. S., Primrose Hill, Cockburnspath, Scotland, says: "As a nerve tonic, I know nothing like it. It gives me great satisfaction."

Dr. Thomas Davidson, L. R. C. P. &. S., Gosforth, Newcastle on Tyne, says: "I find it an exellent tonic in cases of mental anxiety induced by over-study in clergymen and other." and others.'
