WEST COAST ITEMS.

— A Lima telegram says that Sñr. Carlos Pierola is a candidate for the presidency of that country at the next election.

—Telegraphic advices from Santiago report the health of President Erazuriz to be im-proving. It is to be sincerely hoped that he will soon be able to reassume the presidency, in view of the attitude of the jingoes.

The Peruvian newspaper El Heraldo, of Cochabamba, says the Bolivian expedition to the Rio Acre is sure to result successfully, and especially so as its commender, Col. Vellasco, is an intimate friend of Gov. Silverio Nery, of Amazonas.

—A telegram from Rio de Janeiro to San-tiago states that Brazil has been consulted by Chili in regard to the attitude she will assume in case of war between Chili and Argentina. The story does not sound at all probable, for the Chilian government is not seeking war.

Deputy Walker Martinez has presented a bill in the Chilian chamber of deputies providing that Chili will compel the recognition of the disortium acquarum boundary line during the arbitration proceedings between Argentina and Chili. The ministry opposes the measure.

and Chin. The ministry opposes the measure.

—The Argentine journal El Ruis says that
General Korner, chief of staff of the Chilian
army, has declared that the military strength
of Chill is much superior to that of Argentina.
And suppose he did? It is General Korner's
business to say such things, or to confess that
his employment has been a failure.

his employment has been a failure.

—A Santiago telegram of the 20th says that the public session of the chamber had been tumultuous, and that the opposition opposed secret sessions for the discussion of interpellations regarding the alleged Argentine invasion of Chilian territory. Some of the deputies demand an immediate declaration of war against Argentina, and state that it is useless to submit such questions to English arbitration because the decision is sure to be given in layor of Argentina. This, in our opinion, is a virtual confession that Chili is wrong. The war party in Chili unquestionably need a sound thrashing.

RIVER PLATE ITEMS.

—The Argentine department of war asks for \$14,500,000 for next year.

—The Uruguayan congress has decided to permit buil-fights.

—The Argentine government proposes to raise its a my to an effective strength of 10,000 men.

—The Montevideo health authorities have prohibited the importation of Brazilian pro-ducts in bags, dating from the 24th ult.

--- A Buenos Aires telegram of the 20th says at 722 Polish immigrants have arrived there r colonization in the Missiones territory.

—The loading of cattle and sheep from Argentina and Uruguay has been officially prombited in Cape Colony since the 11th inst.

—For the ensuing year the Uruguayan budget appropriates \$16,124,324.86, and esti-mates the receipts at the same amount. — Senator Pellegrini's new scheme is for the creation of a new province in Southern Argentina, to be called San Martin, with Bahia Blanca as its capital.

— Four Boxes of silver coins, believed to have been buried by dictator Solano Lopes, are said to have been discovered on the banks of the Paraguay river.

—The Argentine minister of war, General Campos, has again insisted on the acceptance of his resignation, as his health will not permit him to continue in office.

—Reports are current in London of the sale there of the port of La Plata. When the Argentine has sold his last shirt, then his uncouquerable patriotism will probably impel him to contest the delivery.

—The Nacion of Buenos Aires very properly condemns the interpellation of the Chilian deputy, Walker Martinez, as an attempt to court popularity among the masses. Silent contempt would be the best reply to such an attack. attack.

—The Argentine deputies from the provinces are said to be opposed to the creation of a new province, but favor Bahia Blanca as a provincial capital. How they propose to arrange a capital without a province, we can not imagine.

— Private letters from the River Plate tell us of the ravages of the foot and mouth disease amongst the cattle in Buenos Aires and Santa Fé. We are sorry to say that the disease does not seem to be on the decline according to our advices.

— The influenza fiend is abroad in Buenos Aires. Every friend met there has either had the complaint or reports a mutual friend down with it, or calculates his own chances of getting it within a week or so. Those who have not a bad cold are very decidedly out of fashion.

—A Sucre telegram of the 20th inst, says that a Berlin syndicate is proposing to construct a railway from Rio, across Paraguay, to Santa Cruz de la Sierra, in Bolivia. We very much doubt it. Berlin syndicates, as a rule, are not quite so reckless with their money as that.

The Uruguayan government has appointed Snr. Susviella Guarch is minister to Rio de Janeiro. The new minister is a physician and bacteriologist and was president of the sunitary convention of 1887. If affords very little hope of a sanitary reform on this coast for the present.

—Preparations are again being made.

for the present.

— Preparations are again being made in Buenos Aires for the reception of President Campos Sailes, and among them the quest of a suitable palace for his use. A late telegram says the Devoto palace has been offered and accepted, and that the Auchorena palace is to be fitted up for his suite.

be fitted up for his suite.

The Chilian minister at Buenos Aires has resigned because of difficulties with the Argentine foreign minister in regard to the interpretation of the Buchanan decision on the Puna de Atacama boundary. If there were more good will and less dishonest evasion on both sides, these boundary disputes could be settled easily. Both sides, however, are looking for excuses for a quarrel, and of course they find them easily.

ing for excuses for a quarrel, and of course they find them easily.

—At Mendoza, says the B. A. Herald, there is a law by which every householder must hoist an Argentine flag on May 25th. A well-known respectable merchant hoisted his flag on the 24th and in the night some one in search of cheap bedding annexed it. The merchant was taken to the police court, and put down as a criminal. His measurements and put down as a criminal. His measurements and put ower taken and he had to submit to other indignities, as well as to pay a fine for a crime he had not committed.

—It is estimated that the port fund, which began to accumulate on the 1st of January, will easily reach the half-million dollars by the end of the half-year. In fact there is already close upon £00,000 put by in sovereigns. This shows that the estimate of a million dollars a year available for the port works was fairly calculated. It has to be remembared, however, that the custom-house receipts, from which the fund is drawn, fall off in the second half of the year.—Monteideo Times.

—It is with the most sincere regret that we are available for the contraction of the party of the par

Times.

—It is with the most sincere regret that we announce the fatal termination which occurred last week, of the disease from which Miss Taylor, the well-known and esteemed nurse, formerly of the Anglo-German Infirmary, where she did so much to alleviate suffering humanity, had been suffering for some time. Miss Taylor was only 40 years of age, and she had not been many years in this country, but she leaves behind her a record of self-denying labor which will survive her to her honor in the hearts of many who have been her patients and experienced the benefits of her skill and consideration, R.I.P.—Rosario correspondence of The Southern Cross, June 8.

correspondence of The Southern Cross, June S.

— There is evidently to be more big game hunting in Patagonia. A telegram received here on Friday last says on the authority of the Daily Express, that in a lecture before the Royal Geographical Society, Professor Ray Lankester insisted that a live mastodon was roaming about Patagonia somewhere, and asked for three naturalists to be sent out to examine the nature of the beast, capture him, and bring him to London. Last year a party of naturalists went hunting a mylodon but did not succeed, and we sadly fear the Zoological gardens will never contain a live mastodon, or the Natural History museum a stuffed one showing the real skin of the monster. monster.

monster.

—The friends of Miss Amy Lowe, daughter of the late Mr. C. A. Lowe, for several years traffic manager of the Pacific Railway Company, will be pleased to learn that a telegram has been received from London announcing her marriage, which took place on the 6th inst. The fortunate bridegroom is Capt. Robert McNeill of the Western Telegraph Co.'s steamer «Norseman» who, it will be remembered, paid Buenos Aires a visit with his ship a little over a year ago, when the engagement between the happy couple took place. As the headquarters of the s.s. «Norseman» are at Rio de Janeiro, it is probable that Capt. and Mrs. McNeill will take up their residence in the beautiful suburbs of that city. His brother, Mr. David McNeill, assistant representative of the Western Telegraph Co., also lives at Rio de Janeiro.—Buenos Aires Standard.

—In the different arsenals and on the way

the western Legraph Co., also lives at Kio de Janeiro.—Buenos Aires Standard.

—In the different arsenals and on the way from Europe, the Argentine republic possesses to-day the following:—Artillery, 306 field guns, 198 mountain guns, 30 siege guns, 36 howitzers. Total 570 guns, of which 468 are of 7.5 calibre; 36 of 8. and 66 of 10.5 calibre. All of the latest patterns from Krupp's establishment. For coast defence there are eighteen howitzers of 32 centimetres, twenty guns of 24 and twenty others of from 21 and 15 centimetres. Total fifty-eight, all Krupp, making a total of 628 guns. The number of Maxim guns is 166. Besides, 160,000 Mauser and forty-five (45,000?) Remington: rifles, 50,000 Mauser and 8,000 Remington carbines, 10,000 revolvers, 20,000 steel and 5,000 wooden lances, 40,000 sabres and 6,000 swords. The projectiles are counted by the million and powder by hundreds of tons. No other nation in South America can present a similar number of arms for the defense of the country.—Herald, Buenos Aires.

HOW TO RESUME PAYMENTS --ON PAPER.

Congressman Serzedello, in the report which he has just made on public revenue, as member of the budget committee of the chamber of deputies, attempts to show that the government, at the expiration of the moratorium established by the funding agreement, established by the funding agreement, will b: able to resume payments in cash to its foreign creditors. The process which he adopts for this purpose is that which is commonly known as rule of thumb, a process which, in spite of the slight defect of being utterly untrustworthy, has the great merit of being extremely convenient for proving anything that you may happen to wish.

He begins by assuming that the year

thing that you may happen to wish.

He begins by assuming that the year 1899 closed with a balance of 5,000,0005 in gold and 16,000,0005 in currency.

As up to the present the accounts of public revenue and expenditure for that year are still incomplete, neither Congressman Serzedello nor any one else really knows whether there was a balance or a deficit. President Campos Salles, it is true, in his last annual message to congress presented incomplete data showing a balance; but, as a few days before it had been asserted that no less than 72 balance-sheets were few days before it had been asserted that no less than 72 balance-sheets were still wanting and as, moreover, the President is still sending messages to congress asking for special and deficiency appropriations for last year's expenses in addition to those which he wedges on his own responsibility. expenses in addition to those which he makes on his own responsibility, we suspect that the alleged balance is a delusion and a snare. This obstacle, which would daunt a more cautious man, is no obstacle at all to Congressman Serzedello, who never hesitates to make a mistake, which is regrettable, and who even has under certain circular with the control of the con and who even has, under certain cirand who even has, under certain cir-cumstances, the courage to confess his mistakes and to weep over them, which, if the circumstances were different, would be praiseworthy. We remember that on one occasion, after profiting by the public's sympathy for his sufferings in defence of a just cause, he astounded that miblic by suddenly declaring with that public by suddenly declaring (with the usual accompaniment of tears) that the cause for which he had suffered was not just at all, that he had made one of his mistakes and that his persecutors had ms mstakes and that ms persecutors had merely given him the punishment that he so richly deserved. Overcome with this extraordinary display of caudor, his former persecutors have since loaded him with favors.

BANCO DA REPUBLICA DO him credit, to add to it sundry sums with which a vivid imagination readily supplied him.

The first sum which comes to hand is a balance of £675,760, which he describes as having been ascertained on the 31st of last March. If it was ascertained at that date, it belongs, we presume to the alleged gold balance for \$150, with perhaps a part of the gold 1899, with perhaps a part of the gold receipts for the present year. If such is the case, it is certainly a very useful

is the case, it is certainly a very useful balance, since it can do duty twice.

Then there is the guarantee fund, derived from the collection of 5 per cent of the import duties in gold. This, the financial congressman asserts, in view nnancial congressman asserts, in view of the result for the first quarter of the present year, will probably amount to about 6,000,000\$, or £674.991. He is apparently unaware (or, if not unaware, serenely indifferent to the fact) that this estimate, justified, as he acknowledges, by the result thus far ascertained, destroys his assumption that the present year will close with a balance equal to the alleged balance for last year.

The total gold receipts amounted last year, according to President Campos Salles' last annual message, to 19,417,-Sames last annual message, 0.35,477 7068296, of which 18,483,2255 were derived from the collection of 10 0/0 of the import duties in gold. Now if, as Congressman Serzedello estimates, 5 0/0 of these duties produce this year 6,000,-000\$, then 10 0/0 will produce 12,000,ooos, or 6,483,2255 less than in 1899. The shortage thus shown completely effaces the gold balance on which the congressman counts for this year. It is true that there ought to be this year a true that there ought to be this year a decrease in the gold expenditure, since it is no longer necessary to provide for the payment of interest and principal of the treasury bills issued in London in 1896. But; for this decrease, the congressman makes separate allowance, adding on this account 52,08,650,650. adding on this account £2,080,650 to his balance at the treasury.

his balance at the treasury.

In the 2nd half of 1901, it will no longer be necessary, he says, to burn paper money, and consequently the respective sum, which he estimates at £697,414, can be added to that balance. He thus, by the addition of these various items, constitutes a total balance of the color of the properation for the

of £7,302,245 in preparation for the resumption of cash payments.

This balance so laboriously constituted is, it seems, entirely superfluous, for ed is, it seems, entirely superfluous, for the congressman next proceeds to show that after resumption the government's gold payments will amount to only £3,360,960 per annum, while the or-dinary gold revenue for meeting them will amount to no less than £4,117,667. Moreover, by means of the Uru-guayan bonds transaction, the govern-ment makes a reduction of £664,531 in its gold debt, and consequently a re-

ment makes a reduction of 2004-531 in its gold debt, and consequently a re-duction of £13.435 per annum in the respective interest. And if all this is not sufficient to satisfy the most exact-ing, there is still the Central railway, on which the government can make a

on which the government can make a transaction that will reduce its gold obligations to £1,5c0,000 per annum.

If a man is permitted to draw on his imagination for data, he can undoubtedly prove whatever he wishes. Availing himself freely of this valuable resource. Congressman Serzedello has conclusively demonstrated, not only that conclusively demonstrated, not only that cash payments can be resumed at any moment, but also that their suspension was entirely unjustifiable.

was entirely unjustifiable.

But, scriously, he leaves the question just where it was before he made his report. We had already been informed of the alleged balance for 1899, and we are just as anxious to believe in the reality of that balance as Congressman Serzedello was to confess that he had him with favors.

Having assumed, then, that last year closed with a balance of 5,000,0005 in gold and 16,000,0005 in currency, he next assumes that 1900 and 1901 will each close with the same balance. Consequently we have for the three years 15,000,0005 in gold and 48,000,0005 in currency, equivalent, he says, to £3,-173,430 sterling. Not content with thus having, by this neat stroke of financial conjecture, laid up such a comfortable balance at the national treasury, he then proceeds, with a prudence for which we had not given

The contention between the Viação and Electric companies has been acute. The Viação refused to allow their lines to be cut for the other bonds to pass at Rua Augusta in Avenida Paulista; their workmen turned sa short conflict between the rival bodies which was ended by the arrival of the police. To prevent further disturbance cavalry patrolled the line and a squadron was held in readiness near the central police station to ride off at a moment's notice. The first electric trains to Avenida started on 17th inst., but were unable to make the complete round, owing to the break at Rua Augusta. The trains of both companies were crowded all day; the popularity of Avenida as a pleasure resort is sure to be now greatly increased. On appeal to the judge of 1st 2012, the Viação were upheld in their refusal to have their lines cut. The camara, however, served them with a notice that in event of their continuing in this refusal they would be subjected to a fine of 300500. The Viação replied that they could not recognize the power of the municipal body in this case and would only obey the decision of the law courts. The Light and Power Co. had the decision of ste nara reversed by the judge of 3rd nara, so were empowered to complete the circle of their lines. Dr. Antonio Prado summons the Viação to pay the fine: they protest against such a misdirection of authority and are holding an extraordinary meeting of shareholders to consider what course they shall pursue.

TELEGRAMS OF THE WEEK

SUMMARY FROM DAILY PRESS.

Great Britain.

JUNE 18.—The Daily Express says that the whole of the Taku forts have been taken by the foreign troops. (Both France and Great Britain have uncomfortable memories of the taking of these forts in 1858 and 1860).—There is no confirmation of the assassination of Baron von Ketteler, the German minister in Pekin.—The German consul in Tche-fon confirms the news that the foreign legations in Pekin were seized by the Chinese rebels.—The Times says that President Kruger has shifted his headquarters to Alkmaar, 60 miles from the Portuguese frontier of Mozambique.

JUNE 19.—Marshal Roberts has informed the government that he has reviewed 145 officers and 3,039 men who were recently prisoners of the Boers.—Buller's casualties at the Rhenoster river fight were 16 killed and 100 wounded.—The first train bringing arms and provisions to Buller's forces passed to-day through the Laing's Nek tunnel, which has been quickly repaired by the troops.—Plague has again broken out amongst the army horses and mules, and is seriously affecting the operations of war.—Mr. Chamberlain told a meeting to-day, that the independence of the Transvaal and Orange Free State was impossible, but a liberal and definite solution would be found.—In the attack on the Taku forts 32 small warships were engaged. Of these a Russian vessel was reported to have been blown up and a German and a British ship sunk. The Algerine was named as the latter, but the government has denied the report. The forts were completely destroyed, and an international force is in occupation of the ruins. In the bombardment, the Russians lost is failed and 4 wounded; and the British is killed and 4 wounded; and the British is killed and 4 wounded.—British and Indian troops are being sent from India to China, the latter being intended to garrison Hong Kong and allow the existing troops there to be sput to the north.—Private telegrams from Canton bublished in London say that Li-Hung-Chang has been summoned to Pekin to resume his old position as viceroy of Chiblii, the

old position as viceroy of Chiblit, the province which includes Pekin, Tien-Tsiu and Taku.

JUNE 20.—The government has received an official despatch from the Gold Coast stating that the troops sent to refleve Coomassic were obliged to evacuate Kuvissa after a series of combats with the rebels, in which Capt. Carter lost 11 killed and 17 wounded.—Telegrams concerning the movements of Admiral Seymour's force are contradictory. Some say he has been compelled to return from Tien-Tsin to Taku, others that he entered Pekin on the 17th and still another from the Datip/Acces that he is henmed in at Lang-fang by superior numbers, and that his fate is uncertain. A Shanghai telegram to the Times says that the British flag is flying over the south gate of Pekin.—The Standard says that a Chinese cruiser and four torpedo-hoats have been captured in Taku roads.—The Free Staters have declared Bethlehem, as their capital.—Lord Roberts telegraphs the occupation of Krugersdorp to the west of Johannesburg, by June 21.—The governor of Macao asked

Inner necessary to the west of Johannesburg, by General Hunter's division.

JUNE 21.—The governor of Macao asked urgently for reinforcements of international troops, which were immediately sent him. (Macao is an island belonging to Portugal at the month of the Canton river, with a population of about 70,000.—Telegrams published in Vokohama affirm the murder of the European ambassadors, and also mention the death of Admiral Seymour. (Other telegrams received in London, Paris and Berlin throw great doubt on the truth of the report.)—On the request of the foreign consuls, Li-Hung-Chang has resolved to remain in Canton in spite of the imperial summons to Pekin.—The commanders of the allied forces have issued a proclamation declaring that their only quarrel is with the Boxers and those who impede their march to Pekin to succour their compatriots.—The British commander at Taku telegraphs to the admiralty that no news has been received from Admiral Seymour's column for seven days owing to communications having been cut, nor from Tien-Tsin for five days owing to the same cause. He adds that a move will be made on Tien-Tsin by the allied troops as soon as the expected reinforcements arrive to enable an effective column to be formed.—Al later official telegram is said to have been received announcing the bombardment of Tien Tsin by the Boxers, and the destruction of the American consulate and various European properties.—The war office bulletin says that the latest news from South Africa is that General Buller is encamped at Sandspruit, and that an armistic of five days exists between Marshal Roberts and General Botha.—News has been received in London of the Russin minister for foreign affairs. (He was born in 1845. and, after a distinguished, diplomatic career in all the European courts except that of London, was appointed foreign minister in 1857. He will perhaps be best remembered as the author of the Czar's famous peace proposals that led to the Hague conference.—The Khedive of Egypt, Abbas II, who was expected in Lo

JUNE 22.—The Times saye that the Manchu party to which the reigning dynasty belongs, and which has been in power since 1644, is divided in face of the Boxer insurrection and the presence of the international troops in Chinese territory. In consequence of this split the Empress Dowager and the principal Manchu functionaries who follow her policy of hatred of foreigniers are preparing their flight from Pekin.—A private telegram received in Brussels says that Admiral Seymour entered Pekin simultaneously with a Russian column of 1,700 men that left Tien-Tsin independently last week.—There is nown no doubt that the foreign legations in Pekin are uninjured.—The Standard confirms the fact that Li-Hung Chang has not left Canton. (The veteran statesman is now 78 years old, and does not belong to the Manchu party. «Chinese» Gordon wanted to kill him with his own hand during the Tien-Tsin riots in 1870 and satisfying the Tien-Tsin riots in 1870 and satisfying the Dien-Tsin riots in 1870 and satisfying the Empress of the allied and Chinese roops inside the town are said to have been considerable. JUNE 23.—Gen. Dundonald's forces have occupied Ermelo without resistance, operating from Standerton. The Boer leaders are reported to have held a uneeting in Machadorp. The majority was in favor of making terms of peace. President Kruger was the only opponent, and his attitude is attributed to fear of deportation.—Minister Reitz says that the Boers can sustain a guerilla warfare for three months longer as they have sufficient resources.—Admiral Fisher has received orders to send two warships from the Mediterranean fleet to China.—The Boxers are now said to have surrounded Admiral Seymour's allied forces forty miles to the west of Tien-Tsin. (With the telegraph wires cut, what are we to believe?)—The commander of the French cruiser Pascal says that the situation in Tien-Tsin is a desperate one, and urges reinforcements. The rebel Chinese have demolished the native quarter and from there they are firing with Krupp guns on the foreign houses. It is known that 130 American sailors and 300 Russian soldiers were sent to reinforce the garrison and maintained their position on the way against 2,500 Chinese.—Li-Hung-Chang has telegraphed to the Chinese ambassador in Europe that he intends to go to Pekin, to act as peace-maker, and at the same time he asks them to use their influence to prevent the despatch of more troops.—The loyal troops in China are guarding the railways between Pekin and Hankow.—The Khedive of Egypt is still al Sheerness, His complaint is smoiestial gave de gargantas (We wonder whether he has a bad sore throat, or diptheria).

June 21.—A Madrid telegram published in Paris denies that any government decree suspending the constitutional guarantees has been promulgated, but states that the government is considering some such measure in view of the agioation that is being promoted by the National Union. Madrid telegrams by the Havas Agency state, however, that the Gazeta Oficial has published such a decree to night to operate in all the province of Madrid. In an official note accompanying the decree, the government explains that, although ever auxious to avoid recourse to extreme measures, this was now absolutely necessary in view of the social turmoil. Police and cavalry were posted in all the principal streets, and the chief merchants closed their doors. The confiscation of merchants' goods for refusing to pay their taxes commenced to-day. Dear Sir.—It is no use. I cannot continue my subscription after it runs out. I shall be in a madhouse or a raving lunatic about the streets before the next one is due. Think kindly of me, and put in a nice notice of my virtues when you hear of the coming calamity. Say I broke through China.

I followed the Boer war closely, and understood almost every move from the native papers. Where I was doubtful, your paper soon put me right, and I was on the track again. But when I came to tackle this confounded Chinese business. I got funnmuxed and I have not been the same man since. The telegrams come pouring in twice a day about massacres in Lito Toung and missionaries burned alive at Changitse-Koon, and houses of merchants being sacked at Yang-li-Kiang, but what I want to know is where the dickens the places are and what distance from Pekin, Canton, Nankin. Hong-Kong or any other decent place, they are. The British Library only has a Times atlas, and it does not mention any of these places. My motto has always been aWhen in doubt, consult the Rio News, but your boy could not show me a satisfactory map. I have asked at the consulate, and can get no information.

The question is what am I to do. I must read the papers day by day or die. I can not go on in this way without entering a lunatic asylum within three months. Anyhow just you stop my subsbription from the beginning of next year unless you hear from me in December. Fareweil, Mr. Editor, and think kindly of

ACCORDING to the latest and most reliable telegrams, Kruger is in Pretoria, from which he has fled, and was taken prisoner, but still retains chief command of the Boer forces, notwithstanding that he was killed, after which he continued very ill, but continued in good health. He is preparing to surrender at Pretoria, from which he has fled, and will continue the war to the last extremity, although he has made up his mind that it is of no use and will surrender. All this we have received from the most reliable sources and at great expense from our special liar.—

RIO DE JANEIRO, JUNE 26th, 1900.

THE PUBLIC REVENUE.

Congressman Serzedello, of the budget committee of the chamber of deputies, committee of the chamber of deputies, estimates the public revenue of the country for 1901 at 278,565,000\$ in currency and 46,191,667\$ in gold, making a total of 324,756,667\$. For last year the budget estimate of the currency and gold revenue was 351,114,000\$, and the sum actually collected, as far as ascertained up to the present, was 322,110,706\$296, of which 302,693.000 were in currency and 19,417,706\$-296 were in gold

667\$593.

It is not yet certain that the budget committee will adopt the revenue bill reported by Congressman Serzedello, it being rumored that certain changes will be made. We regret, however, that thus far we are unable to inform our readers that the committee will strike out the most objectionable feature, which is the provision for collecting in which is the provision for concerning in gold a larger proportion of the revenue. According to this provision the collection of import duties next year will be as follows:—For every 100\$ due in conas follows:—For every 1005 the in conformity with the tariff rates, 25\$ in gold will be collected and such a sum in currency as added to that 25\$ in gold will make 130\$ in currency. Congressman Serzedeilo contends that this will not increase the present burdens of taxture this is one of the congress. not increase the present burdens of taxpayers; but this is one of the congressman's mistakes, as may be seen by
reducing the respective figures to a
gold basis. This provision in the proposed revenue bill is, consequently,
contrary to President Campos Salles'
pledge not to increase the people's
burdens and should, therefore, be
vigorously opposed.

And even were it true that this provision does not directly increase taxation,
it indirectly does so by preventing the

it indirectly does so by preventing the importer from securing the decrease in taxation caused by the rise in exchange. To establish a fixed tax when the rise exchange tends to diminish it, is to shut the taxpayer out of the enjoyment of all benefit from this improvement, to which he is fully entitled by the sacri-fices which he has already made.

fices which he has already made.

THERE can be no doubt that President McKiuley has made a serious mistach uniting with the European powers in the present invasion of China. What little shred of excuse remained for maintaining the Monroe doctrine is now swept away. It was a part of that doctrine that the United States would not interfere in the affairs of the old world. If now that purpose is deliberately broken, how can it be maintained that Europe shall not interfere in the affairs of the new world. The engagement was voluntarily and deliberately made that the United States would avoid European entanglements in order that such questions might not be brought across the Atlantic to disturb the harmony of the American continents, and yet, within two years of her easy victory over Spain we find the United States working hand in hand with England, France, Russia and Germany to put down an insurrection in China, and to prepare the way for a division of that chaotic old empire among the western nations. Possibly there may be good and sufficient reasons why the United

States should do this, but to do it is to cut adrift from the policy on which the Monroe doctrine rests. We are not altogether sorry for this, for the Monroe doctrine covers one of the most erroneous and mischievous policies that the world has ever known—one that means endless trouble to the United States without a single compensating advantage.

means endless trouble to the United States without a single compensating advantage.

The Segundo Districto of Campos has continued to denounce President Campos Salles' intervention in the affairs of the chamber of deputies. Up to the night of the Sth inst., says that journal, all counts showed a majority of at least to against the candidates of Gov. Alberto Torres. Determined to count in these candidates at any cost, the President did not hesitate to use his official influence in their favor. "To independent representatives of the people who dared to oppose him," says this journal, "the allided in terms that were not only improper, but even offensive." But this was not all. He went so far as to send telegrams attreatening the states of Amazonas, Bahia, S. Paulo, etc., with federal intervention which would convulse them with political agitation and destroy party order." He threatened the Paulistas with the restoration of the political ascendency of Gen. LEGISLATIVE NOTES

JUNE 18.—Senate.—The senate sustained everal vetoes of the prefect of the Federal District.

JUNE 19.—Chamber of Deputies.—The chamber decided the contested election cases in the 3rd district of the city of Rio de Janeiro. To the bill for erecting a monument to Admiral Barroso Deputy Alves Barbosa offered an amendment providing that this monument shall be erected at the navy yard. Deputy Barbosa Linua introduced a bill on promotions in the army.

COFFEE NOTES

—The negotiations for a reciprocity treaty between Brazil on the one side, and France and Italy on the other were successfully concluded on the 20th inst. It is said that negotiations will be at once initiated with Spain and Austria-Hungary. In the meantime, the negotiations with the United States remain where they were!

where they were!

—A Minas planter wants to know, you know. On the 20th inst. he shipped 1,331 kilos of coffee from Autonio Carlos station to Rio and the freight amounted to 1048, of which 918800 went to the Central railway. Under the old tariff the freight charges on this shipment would have amounted to 63\$400. Now in his message of the 19th inst the governor of Minas Geraes affirms that he had secured material reductions in rates in his new agreements with the Central and Leopoldina railways, and this unhappy planter wants to know where they come in.

Provincial Notes

—At the gubernatorial election to be held in the state of Rio de Janeiro on the 8th prox. Senator Quintino Bocaynya is the candidate of Gov. Alberto Torres' party.

—A split has occurred in Dr. Lauro Sodré's party in the city of Pará, which threatens to leave him in a hopeless minority. He should remove his *penates* to the state of Rio Grande do Sol

-The Bolivian consul in Belem, Sr. Maximo Nava, has gone mad. He must have been thinking overmuch of the Acre question, which is likely in time to drive all South America mad.

America mad.

—A jury at Porto Alegre on the 20th inst. decided that Judge Manoel Telles de Queiroz was guilty of calunny against the governor of the state because of what he had said of that official in some decision rendered. He was condemned to one year's imprisonment and 1,000\$ fine. The Castilhista faction which rules Rio Grande do Sul is determined to have no independent judge in that state.

no independent judge in that state.

—A Pernambuco telegram of the 21st inst. says that a police force from Pernambuco, combined with one from Parahyba, cornered a band of outlaws on the boundary at a place called Surrão. A fight ensued, which resulted in the killing of 14 bandits, and in the wounding of several policemen, one of them Lieut. Paulino, gravely. A Parahyba telegram, however, says the affair was nothing but a criminal assault on political opponents, the victims being pacific citizens, not criminals, who were shot down in cold blood.

RAILROAD NOTES

— The President has sent a message to congress asking for a special appropriation of 35,556\$418 for surveys on the railway route between Catalão and Cuyabá.

— In view of the suffering caused by drouth in the state of Ceará Decree No. 3.684, of the right inst., makes a reduction of 25 % in the freight rates on foodstuffs on the Biturité

The President has asked congress for a special appropriation of 86,260\$32 for paying to the Compagnie Auxiliaire des Chemins de Per du Brésil guaranteed interest on capital deposited at the London and Brazilian Bauk.

-The Central railway has paid 533,240\$681 into the treasury as the revenue derived during week before last.

—By a decree of the 20th the government concedes an abatement of 25 % in freight charges on articles of prime necessity transsported over the Baturité railway. The concession will remain in force until the termination of the famine now devastating the state of Ceará.

SHIPPING NOTES

—The Portuguese cruiser "D. Carlos I," which visited this port last month, has been ordered to Hon-Kong.

—The transport "Carlos Gomes" has been brought up from Angra dos Reis and turned over to Messrs. Lage Brothers for repairs.

—A telegram from Santa Catharina on the 20th announces the arrival there of the crew of the Norwegian bark "Urania, which was encountered in a sinking condition on the 18th by the steamer "Alexandria» in lat. 26° 55'S. and long. 48° W.

—The passengers passing through this port on the Pacific Co's, steamer "Oravia," on the 20th, were not at all cheerful over the prospect of spending ten days quarantine at Flores island, Montevideo, It is enough to make a man turn anarchist to be forced into such a pest-hole.

—The fornal says that the future directors of the "reorganized" Lloyd Brazileiro company will be Srs. Cesario Alvim, president, (who knows absolutely nothing about steamships). Alberto de Faria, and the present delegates of the syndics. Commanders Leopoldina Silva and Camara. In all probability the new company will go the way of the old one.

pany will go the way of the old one.

—The passengers arriving here on the 19th inst. by the French packet «Cordillère» complain of the petty tyranny of the Argentine sanitary inspector at Bahia, who forbade their landing there although the health of both ship and port were declared good. Is it not full time to put an end to this miserable farce? The Argentine sanitary inspector generally conducts himself as though the whole coast belongs to him, and as though ship, passengers, cargo and all were wholly at his orders. No one will object to any reasonable restriction, but these purely vexitious impositions based on imaginary dangers ought to be stopped at once.

LOCAL NOTES

The Vicomte de Lavour de Saint Fortu-nade, French minister to Brazil, expects to return home at an early date.

—A cold rain-storm began on Thursday morning last and helped to make Rio much more uncomfortable than it usually is. It was anything but agreeable weather for the sick.

—The Club das Larangeiras gave its first dance of the season on the evening of the 23rd inst. The directors will accept many thanks for the invitation so kindly sent to this office.

— Advices from Italy state that Dr. Eduardo Ribeiro, of Amazonas notoriety, is in an Italian Imatic asylum. It is a great pity he did not get there before doing so much mischief at Manáos.

—The chamber of deputies has further stultified itself by admitting the rest of Gov. Alberto Torres' nominees. The value of a chamber constituted in this way need not be discussed.

—The French veterinary surgeon Carré, who had been engaged by the board of health for the new bacteriological laboratory, has resigned the post and is returning to Europe because of illness.

The police has shown much activity during the past week in attempts to catch the counterfeiters who are flooding the country with counterfeit money. But, of what use will it be if the criminals are not punished?

—We have been informed that quite a number of prominent persons will be represented in the florianista procession next Friday; but our reporters have not been able to ascertain who is to represent Capt. Deocleciano Martyr.

— The solicitor of the republic has asked for the indictment of all but five of the persons accused by the chief of police of the crime of conspiracy. We understand that the accused, if indicted, will apply to the supreme court for the quashing of the indictment.

The Paula Candido (bubonic) hospital is to be lighted with acetylene gas, but the workmen who are to put in the plant will be inoculated with the Terni serum before entering the place. By the way, how about the drainage of this hospital? Is it discharged direct into Jurujuba bay?

Irrect into Jurujuba bay?

—It is said that the sanitary authorities of Nictheroy are thinking of raising the restrictions imposed on travel across the bay. They can do so in perfect safety, for the said restrictions are absolutely valueless. The requirements are absurd in every respect, for the desinfection falls upon articles little likely to convey infection, while the dirty bodies and clothes of laborers crossing every day are permitted to pass without question.

—Owing to the pressure on our columns in this issue we are compelled to leave over some articles of interest for our next. We must again ask our friends to send in their communications as early as possible, and not leave them for Monday or Tuesday.

leave them for alonday or Tuesday.

—We were perhaps just a little too previous, in amouncing the suspension of the Jornal's special telegraph service, for on the 2nd our enterprising contemporary published a special of the 21st from Dublin stating that the people have made enthusiastic demonstration to Queen Victoria, who is returning to London to-day.»

London to-day.»

—On the 20th inst. the Noticia published a notice that the body of a child had been lying unburied for three days at No. 92. Rua do Cattete, through the negligence of the police. The child died without medical attendance, and as the sanitary authorities declared it not be a case of pest, the police should have attended to the burial.

attended to the burnal.

— We are informed that a former canvasser for advertisements for this paper is seeking credit for himself in various places on the strength of being employed by us and having money to receive from us. In view of this we desire to say that he is not in our employ, and has no right whatever to use the name of this paper in his private affairs.

this paper in his private affairs.

—Mr. Nonhebel, of the firm of Nonhebel & Co. of Buenos Aires, who was so long and favorably known in Rio, was a passenger to England on the «Clyde». We hear that he is to be married in London to Miss Eveline Hill, who with her mother left Rio by the same steamer. We wish the happy couple every happiness and join their many friends in hearty congratulations.

The Journal de Commercia, has given and the contraction of the contraction of the contraction of the contraction of the contraction.

hearty congratulations.

—The Jornal do Commercio has given up its special telegraph service from Europe during the past few days. We are sorry for this, as we thoroughly appreciated the condensed form in which its messages were sent. All its readers will be sorry too. Compared with the ordinary Havas service, the Jornal's telegrams were marvels of brevity and lost nothing in pith. Palmam qui meruit ferat.

pith. Palman qui merat perat.

On Saturday and yesterday masses were said at five churches in this city for Admiral Saldanha da Gama and his comrandes killed on the 24th of June, 1895, at Campo Osorio. The S. Francisco church, at which there were solenn exequies under the auspices of the cadets of the naval school, was literally full to overflowing, many persons having been obliged to go away on account of not being when the training the content. to enter.

able to enter.

— It is worthy of note that the minister of finance has concluded that the affair has gone quite far enough. He has said to the director general of public health that the pest must be finished by the end of the month, as there will be no money to spend on if after that. But the director has let it go too far, and it will be very difficult to diminish the pest decently and in order much before the end of another month. a nother month

decently and in order indea before the another mouth.

—The Brazilian Review, a private journal, is printed at the mational printing office and the Boletim do Serviço de Estatistica Commercial, an official publication, is printed at the office of the Jornal do Commercio. We do not know how this impresses a man up a tree, but to us it seems that it ought to be reversed. Let Joseph P.'s journal be printed at Joseph C.'s office and Murtinho's journal at the government printing office.

—One of the worst features of the present situation, which is due to the arbitrary conduct of the sanitary authorities, is the disinclination of poor people to call in medical attendance. For this the medical profession is also to blame, for many physicians will not visit the poor without payment in advance. Where physicians to be less exacting in this respect, and were they to insist upon their right to protect their patients against violence, the situation would certainly be very much improved.

the situation would certainly be-very much improved.

—One cannot refrain from applauding Brazil as at ieast gifted with the courage of her opinions. She applied drastic measures to us; but she is willing to deal out the same to herself. Ten days' quarantine on all vessels from Rio is to be imposed in every other Brazilian port. The number of cases to date is stated as 85, and deaths 26, which indicates a pretty high percentage. Probably the Brazilian authorities do well to be strict. The news from San Francisco is not encouraging, and although Rio has no Chinese quarter, there are no doubt parts of the town that call for the constant vigilance of the authorities, although possibly they have not got the length of burning the city refuse in the open air.—Rezirex. Buenos Aires, June 9.

—Gen. Teixeira Junior, director general of artillery, has very properly refused to be the medium for inviting officers under his command to take part in the procession in honor of Marshal Floriano Peixoto. These processions, he correctly says, have been political demonstrations destructive to harmony among Brazilians and at times dangerous to the stability of constituted authorities. The Paiz attacks the general and covertly threatens him with the wrath of President Campos Salles. It asserts that, having assisted in obtaining money for the monument to be erected to General Carlos Telles, he is inconsistent in thus denying his aid to the florianista procession. But are the cases parallel? Is the erection of a monument to Gen. Carlos Telles a political demonstration? In any case Gen. Teixeira is doing right in the present instance.

—We can not urge the exercise of too great care with swellings. Nothing is safe except swelled head. A swollen face caused by a bad tooth is quite enough to send the patient to Jurnjuba as a case of suspected bubonic peat, and all his friends to the S. Sebastiao yellow fever and small pox hospital as prospective ones. If you happen to have a toothache, or your corns are troubling you, it is best to remain at home, close the windows, lock the doors and put up a notice on the gate that you have gone out of town for a week.

have gone out of town for a week.

— In regard to a personal item appearing in this section some weeks ago, a friend sends us the following comment:—at noticed in your issue of 29th ult... a paragraph referring to Mr. R. L. Hyde. Although "fortune failed to smile upon him" his many Rio sympathetic friends did not fail when called upon to give their assistance. Through the efforts of Mr. W. I. Jessop a sum was collected, and after defraying expenses here, passage home, and placing at his disposal ample means for him to reach his relations the amount of £90:0:1 has been remitted to his sister, to provide for his immediate requirements."

During the past week a controversy arose

his immediate requirements.»

— During the past week a controversy arose in regard to an alleged case of bubonic pest. A young woman was sent here from up country for treatment for pulmonary 'consumption. She died, and then a suitary inspector came in and declared it a "suspected case" (it probably figures among the deaths from bubonic pest in the statistics), and had the house drenched with disinfectants and closed. The family with whom the girl was living was subjected to great inconvenience for want of clothing, and when the gentleman complained in the press he was roundly abused by there was not the slightest re-son for considering it a case of bubonic pest.

—The ways of the sanitary authorities here

considering it a case of bubonic pest.

—The ways of the sanitary anthorities here are inscrutable. A case of real or suspected bubonic pest occurred in a business house in Rua Sete de Setembro a few 'days ago. The patient was removed to the hospital and those in contact were isolated for ten days, away from the house. A sanitary emplové sits at the open door most of the day talking to the policeman outside who sits on a chair and blocks the narrow footway. The sanitary man should be liable to catch the possible infection and communicate it to the policeman, who is in constant contact with hurdreds of passerssly every hour. Why not close the door with the sanitary man inside?

—We have the pleasure of congratulating

elose the door with the sanitary man inside?

— We have the pleasure of congratulating the Rev. J. Kennedy and his wife this week on the recovery of their little girl who was down with yellow fever at Copacabana, as mentioned in our last issue. Several sympathetic friends of theirs called during the week to bring as the good news. We are in receipt of a letter from Mr. Kennedy, dated 2 xrd inst., in which he says: —On behalf of Mrs. Kennedy and myself permit me te express, through your columns, both to yourself and numerous other friends, our deep gratitude for the many warm expressions of sympathy for us during the very severe illness of our little daughter. We are happy to announce that she is now convalescing.

There were under treatment at the Paula Candido hospital on the 20th inst. 99 cases. It should be observed, however, that very many doubts exists in regard to the diagnosis of these cases, many persons dying in their own houses being buried hurriedly on the supposition that the disease was bubonic pest.

BRITISH CHURCH.

British Library, 26. 6. 1900.

Dear Sir —Having omitted mentioning on Sunday last that Friday next being St. Peter's day Holy Communion will be administered at 9 a.m. that day in Christ's Church, kindly enable me to repair the error by putting a few words to the above effect in your issue of this week. I am,

Yours faithfully,

JOHN D'ARCY, Brit. Chaplain.

The first dance of the season was given by this Club last Saturday evening, the 23rd inst., when the newly rearranged and decorated premises were reopened to members and their friends, who expressed entire satisfaction with the changes and with the confort afforded. A most successful evening resulted—the supper table and music being excellent—and it was thoroughly enjoyed by those present, among whont we noticed:

Mrs. and Miss Robinson, Mr., Mrs. and Miss Gordon Pallen, Mr. and Mrs. Bunn, Mr. Mrs. and Miss Cazaly, Mr. and Mrs. Hungh Pullen, Mrs Cross, Miss Wyatt and Miss Wiurum, Mr. and Mrs. Fietz, Mr. and Mrs. Gillies, Mr. and Mrs. Lima Castro and Miss Violeta Lima Castro, Mr. and Mrs. Lima Castro, Mr. and Mrs. London, Mrs. and Mrs. Lepbore, Miss Young, Miss Wilson, Mr. and Mrs. Conhair Freire and the Misses Lassance, Dr. and the Misses Hastings and Miss Padhares, Mrs. and Miss Hagreaves, Miss Lefebvre, Miss Young, Miss Wilson, Mr. and Mrs. Cunha Freire and the Misses Lassance, Dr. and the Misses Lassance, Dr. and the Misses Abren, Stacey, Atlee, Wheatley, N. Indice del Comercio Americano; a descriptive and classified directory of the members of the National Association of Manufacturers of the United States. A convenient and useful book of reference for business men.

Boletim do Serviço de Estatistica Commer-cial, for the first quarter of 1900. Although the returns are incomplete, the statistical in-formation is well organized and can not fail to be very useful. The typographical work is hardly what it should be, but this can be remedied, and possibly pressure can be brought to bear on provincial officials to send in their returns earlier. The director is to be congratulated on his work, which we shall take occasion to use whenever convenient.

Business Notes

—The Diario de Pernambuco, which we believe is the oldest journal in Pernambuco, is to be sold at judicial sale on the 28th inst. It is valued at 115,000\$.

—The Botanical Garden transway company is arranging to ask this market for a loan of 8,000,000\$ for the improvements of its line required by its new contract.

The new loan of 10,000,000\$ which the municipality is trying to raise in this market, is being taken very slowly. Up to Saturday last only a fourth had been subscribed.

The price of disinfectants has increased more than a hundred per cent, since the peste nunonica broke out. It has been a good business for the druggist as well as the medical sanitary inspector.

sanitary inspector.

— Complaints that the Amazon Telegraph Co. has dropped Alemquer and Obidos from the number of Amazon cable stations, has been denied, the company's representative stating that they had first repaired the direct cable which is now working to Manaós, and that the branch cable which serves the two stations mentioned will next be repaired.

—The Alliança insurance company, which has been in rather an unsatisfactory condition for some time past, has resolved to call up 100,0005 on account of capital. It is the practice of Brazilian companies to pay up only a small part of the subscribed capital, which in our opinion is a mistake. The companies would stand better if they had a larger available cash balance on hand.

and cash balance on hand.

—The manganese industry seems to be making considerable progress in Bahia. The bark Secerino, which sailed on the 20th inst. for Philadelphia, carried 2,000 tons of manganese, and the steamers Ruskin and Guajará were loading at the same date for English ports. The former was to carry 3,000 tons and the latter 2,400, It is to be hoped that this incipient industry will not be killed with burdensome taxes.

burdensome taxes.

—From the 4th to the 21st inst. no less than 89 fines each were imposed on business men for neglecting to stamp receipts. We understand that the contractors who supply the city of Rio de Janeiro with fresh meat have decided to retrain from receipting their accounts unless the customers choose to furnish the stamps. It is also said that there are some miserable scoundeds about who are making a business out of this dirty regulation.

We avoig be our recent explanges, that

some miserable scoundrels about who are making a business out of this dirty regulation.

—We notice by our recent exchanges that an attempt is being made in England to float a company to work the deep sea fisheries off the Brazilian coast. No enterprise could be more profitable under certain conditions, and those conditions are large capital, deep-well boats, experts in curing and smoking, and—imported sait. In 1898 nearly 7,000 tons of saited codfish were imported into Rio alone. Tinned Abordeen smoked herrings are a costly luxury here. Cornish smoked sprats are everywhere on sale, and Concarneux sardines sell by thousands of boxes every week. Yet Billingsgate in all its glory never saw such a variety of fish for table purposes as can be seen any morning in the Rio fish-market. All the fish caught is, however, sold fresh. An expert from reterhead or Megaviscey in Rio would bring dividends to any inshing company. Labor is cheap, coopers are plentiful, suitable wood is abundant, and the supply of fish exceeds the demand. Rio bay alone could yearly supply the interior of south America with sardines sufficient for a dozen Lents and Advents, leaving Fridays out of the count. But large capital, practical experience, modern methods and good salt are necessary to success with English or other capital. Brazil is wasting one of its most precious gifts by neglecting this industry.

RE COUNT LEOPOLDINA.

RE COUNT LEOPOLDINA.

Under the failure of Henry Lowndes, described in the receiving order as Henry Lowndes Leopoldina, Comnt Leopoldina, company promoter, 47, Old Broad-street, E. C., accounts have now been filed showing liabilities £48,193 and assets consisting of property the value of which has yet to be ascertained. The debtor was formerly in Brazil working sugar and coffee estates and ocean steamers (1) and promoting banks, companies, and financial undertakings. He came to England in 1894, and commenced business as a company promoter at 3, Great St. Helens, E. C., where he promoted the Tamworth Gold Mining Company, Limited, and other concerns. He subsequently went to

Brazil, and took a lease of a gold mine in Minas Geraes. Returning to England in May. 1898, he promoted the Carrapato Gold Mining Company of Brazil. Limited, with a nominal capital of £375.000, to take over the property. He attributes his failure to inability to recover property belonging to him in Brazil and to the withholding of his 'consideration as vendor to the Carrapato Gold Mining Company. — Financial News, May 15.

FINANCIAL NOTES

— The assets of the naval club amount to 615,134\$026 and its liabilities to 248,482\$360.

- Last year the receipts of the postoffices in the state of Amazonas amounted to 130,214\$150 and the expenses to 117,094\$783.

—On Saturday last the minister of finance arned another thousand contos de verbas—o, reis—for account of the funding loan.

Decree No. 3.683, of the 16th inst., makes a deficiency appropriation of 550,000\$ for the payment of expenses with the bubonic plague.

—A supplementary credit of 500,000\$ for expenses incurred in suppressing bubonic pest, was registered by the tribunal of accounts on the 22nd inst.

—The fornal hears (?) that the minister of finance will now suspend the burning of paper money because he has exceeded the amount required by the funding loan contract. Certainly, of course — but let us have the figures!

—Councillor Andrade Figueira states that he is informed that the Banco da Republica has made a reduction of 25,000,000\$ in its debt to the national treasury by the payment of 8,000,000\$ in cash and cancellation of what is described as a special debt of the government to the bank, amounting to 17,000,000\$.

—It is a curious circumstance that the report of the budget commission should have been presented to the chamber of deputies before the publication of the report of the minister of finance. In the natural order of things the financial report for the year should be the basis of the budget report, but in its absence the latter seems to be based on pure conjecture. It is not a rational way of running a government, it must be admitted.

Tropon is pure Albumen; it offers this most important constituent of our daily food in highly concentrated form. The mutritive value of one pound of Trepon equals that of 5 pounds; of prime beef or 80-90 eggs.

Tropon is almost entirely assimilated by the system and transformed into blood and muscles, a fact which is of highest importance in those cases where the digestive canal has to be cared for in mechanical respects. (Dysentery, Diseases of the intestines, etc.)

Tropon is very easily digested; it represents a food which without overstraining even the weakest stomach offers a large amount of nutriment. (For Children, disorders and diseases of the Stomach, Kidneys and the Nervous System, Liver complaints, Couvalescents, etc.)

Liver complaints, Convalescents, etc.)

Tropon—by replacing the lost Albumenenables us to arrest the decline of strength
caused by fever and infections diseases. (Yellow Pever, Blackwater Fever, Malaria, Tuberculosis, Typinis, etc.)

Tropon is a tasteless and odorless powder.
It can be mixed or baked or cooked with other
tood or else can be taken in drinks.

Eminent medical authorities are constantly
calling attention to the merits of Tropon.
