

TELEGRAMS OF THE WEEK

SUMMARY FROM DAILY PRESS.

Great Britain.

AUG. 19.—The Japanese commander, General Yamagata, has reported to Tokyo that the allies entered Pekin, bombarding the eastern wall, which was defended by the Chinese. The Russians and Japanese attacked the canal on the north, the Americans and English attacked the eastern gate and entered the Tartar city; the Americans and English penetrated the Chinese city through the Tang-Pien gate. The allies immediately sent contingents to liberate the legations. The Japanese had 100 killed, the Chinese 400. —A Chefoo telegram says a part of Pekin is on fire, that the allies are bombarding the imperial city, and that Yuen had prevented the flight of the Dowager Empress from Pekin.—A South African telegram tells the queer story that De Wet and his commando had appeared at Baden-Powell's camp and offered to surrender. (It looks like a bad dream.)—Other telegrams from Lourenço Marques state, that the same De Wet had captured 4,000 British and seven cannon. (If the censors would let facts come through, and not lies, we should have a better opinion of them.)—Lord Roberts has issued a proclamation threatening death to all Boers who violate the oath of neutrality, and as accomplices of the enemy those who do not report the presence of hostile Boers.—A Pretoria telegram says that there was developed by the investigation that there was only one conspirator against the life of Lord Roberts, a Lieut. Cordua, who had been instigated by an English agent.

AUG. 20.—Li-Hung-Chang has asked the allies for an armistice for peace negotiations. —Gen. Chaffee, of the American contingent, took the Tartar city in Pekin, and the allies are bombarding the Imperial City. (Pekin comprises three separate walled-in cities—the Chinese, Tartar, and Imperial.) The latter is surrounded by the Tartar city.—The Times is informed that the French cruiser "Bascaille" landed 60 marines at Shanghai. —The Imperial family and court have arrived at Suifu, fleeing from Pekin. —Hong-Kong telegrams state that the mandarins of the southern provinces are refusing to accept responsibility for the disorders at Pekin.—Lord Roberts telegraphs that Gen. De Wet has left Commando Nek for the north, and Gen. Hamilton has occupied Oliphants Nek, capturing two Krupp guns.—Gen. Ruddle says that 684 Boers surrendered at Harrismitth.

AUG. 21.—The allies have captured the imperial city in Pekin, with the public edifices and their dependencies.—The governor of Shantung has died, it is believed by poison.—The Daily Mail learns that a vessel has left Yokohama with Japanese troops for Shanghai.—The Daily Express is saying that Russia and England had concluded a satisfactory accord in regard to China.—The Times hears from Shanghai that Li-Hung-Chang is in daily communication with St. Petersburg. (It has been frequently stated that Li had become a Russian agent in China.)—A Pretoria telegram says that De Wet has refused to fight Baden-Powell and has entrenched himself 15 miles from Pretoria. (How about his offer to surrender?)

AUG. 22.—Advices received by the London war office state that the Russian and American flags were the first to wave over the Tartar city in Pekin. The Japanese afterwards occupied the imperial palace. Many converted Chinese missionaries detained there were at once released. The British and Japanese contingents captured the arsenal where 5,000 Mauser carbines were secured (another telegram says 50,000).—The British legation losses were 65 killed and 160 wounded.—The imperial family has escaped to Sin-fu, escorted by 10,000 "black flags".—To day's telegrams state that the allies had defeated the Chinese on the 19th inst. eight miles from Tientsin. —The Times says a Russian cruiser and gunboat have gone to Shanghai.—A Yokohama dispatch announces a rebellion in Corea, and an attack on Song-ching by 1,000 rebels.—From Pretoria it is telegraphed that Lieut. Cardua (Cordone, or Corduu) has been found guilty of conspiracy against the life of Lord Roberts, but that he had no accomplices and was instigated by an Englishman, who has escaped. Sentence awaits Lord Roberts approval of the finding.—Gen. Hamilton has crossed the Crocodile in reply to that of Lord Roberts threatening the Boers with death who do not inform against their own countrymen.—Lord Roberts telegraphs that Baden-Powell had repelled the rearguard of the Boers under Glycer. The Pinaars station, north of Pretoria, has been occupied by the British.—Gen. Buller is encamped 15 miles south of Belfast.—Gen. De Wet to escape pursued of the British forces has again crossed the Meagbersberg river. President Steyn is seeking to join President Kruger.—A sensa-

tion has been caused in London by an article in *Truth* in which Mr. Labouchere accuses Joseph Chamberlain of having used the conflict between Great Britain and the South African republics for his own private advantage.

AUG. 24.—The Times says that Japan has offered China the services of two Japanese jurists to negotiate peace with the western powers.—Pekin dispatches of the 24th announce the liberation of the Peking cathedral garrison of 40 men (30 French and 10 Italians) which had successfully defended that place against the Boxers.—New dispatches confirm the reported disorders in Corea.—The Japanese have landed troops at Amoy.—From Pretoria it is announced that Lieut. Hans Cardua will be shot to-morrow.—Lord Roberts telegraphs that Kitchener has dislodged the Boers at Komati.—The Voornaja have dug up some munitions at Brandwater.—Baden Powell has taken 100 men whom the Boers had captured.

Gen. De Wet has dispersed his commandos and is crossing the Megolies mountains to the south. Severe fighting is reported from Buller's division, which has been attacked by Botha.

AUG. 25.—The Chinese imperial family, after resolving not to resist the allies at Pekin, left Pekin after decapitating four ministers who were friendly to the foreigners. They are now at Tai-yuen-fou, capital of Chan-si 410 kilometers west of Pekin, where a cannon foundry and one of the best Chinese arsenals is located.—A Taku dispatch says that 1,000 allies on the 20th inst. routed 6,000 Boers southwest of Tientsin. At Pretoria the execution of Lieut. Cardua took place yesterday. The military authorities refused to deliver the body to his friends. (One telegram intimates that Lieut. Cardua was a German. Nothing more is said of the Englishman accused of instigating the conspiracy.)—The London journals are rejoicing over the reports of victories in South Africa. (The press dispatches are unfortunately not telling what these victories are.)—The principal item of news is the dispersal of De Wet's commando. (This is a common expedient with the Boers, but the London journals seem to ignore it.)—A Capetown telegram says the Boers have surrounded Buller's column and a violent combat is raging there. Buller had lost 67 men and 250 prisoners. Another telegram locates the fight at Wanny-bank (2) and says that one of Buller's brigades was involved. Still another telegram says that Buller lost 13 killed, 60 wounded and 33 prisoners at Liew-Kloof on the 23rd inst.—1,075 soldiers embarked at Southampton for South Africa to-day.—At Cardiff 35,000 laborers are now without work, including miners and railway employees.

France.

AUG. 19.—Shanghai telegrams state that French war vessels were preparing to disembark 150 marines.—Two persons injured yesterday at the exposition by a bridge accident have died.

AUG. 20.—The Sultan of Morocco has issued a circular to the powers protesting against the French occupation of Touat.—The police have captured seven accomplices of the anarchist who attempted to shoot the Shah of Persia.

AUG. 21.—A battalion of zouaves has left Algiers for China.—*Le Temps* to-day publishes a telegram that the Japanese had surrounded the Dowager Empress of China, who was trying to escape with 50 millions of taels.—Col. Marechal is to leave for China.—The stokers strike at Marseilles has terminated.

AUG. 23.—The French consul at Wusung, China, reports an attempt to incite an insurrection at Hankow. The local police seem to have quelled the rising.

AUG. 24.—The Marseilles stevedores' strike continues, and the passenger and freight traffic of the port has been transferred to Genoa.

AUG. 25.—A Taku telegram says that 40 days rations have been sent to the allied troops at Pekin. A strong escort is accompanying the supplies.—Troops have been sent to Havre because the strike there is extending.

United States.

AUG. 20.—The Chinese government has asked President McKinley to appoint a diplomat to negotiate peace with Li-Hung-Chang.

AUG. 21.—The United States government has refused to designate a diplomat to negotiate peace with Li-Hung-Chang.—The Herald publishes a telegram from Peking stating that the members of the foreign legations are in good health in spite of having been on half rations for eleven days. About two thousand shells had been fired against the legations during the siege by the Boxers.

AUG. 22.—Admiral Remy telegraphs that the imperial city in Pekin had been occupied, and that the Americans and Japanese had defeated a division of Boxers near Tientsin.—Up to the 15th, in Pekin, the Americans had lost one officer and six men killed and 30 wounded.—Minister Conger telegraphs that Japanese, Russian, French, American and British troops had occupied Pekin and that the imperial family had fled to the west. No government at present exists in Pekin.—The American government has advised Li-Hung-Chang that negotiations are impossible while no government exists in China.—The Asiatic American society telegraphs that the situation is becoming worse in the Yang-tse region and that 15,000 soldiers are urgently needed at Shanghai.

AUG. 23.—From Manila it is reported that the Philippine Gen. Crucifixion has surrende-

CRICKET AT ICARAHY.

BRITISH BANK 75. LONDON AND RIVER PLATE BANK.

Played at Icarahy on Sunday 19th August and resulted in a win for the British Bank by 42 runs. The British went in first and made 116, the principal scoring being done by McNair, 28. Morrissey 25, Jeans 18 and Robinson 15 not out, while the River Plate were all out for 74, out of which Allen made 35 and Nobrega, 12, none of the others reaching double figures.

COFFEE NOTES

—A contributor to the *Diario Popular* of São Paulo very pertinently asks how the government can negotiate with foreign governments for a reduction in their import duties on coffee when Brazil levies such heavy export duties on that product. If the import duties check the sale of coffee then export duties must have the same effect. Last year the state of São Paulo received 29,050,732\$888 from export taxes, which was almost exclusively derived from coffee. During the last eight years São Paulo has received the enormous sum of 226,350,615\$555 from these burdensome taxes, mostly from coffee, most of which has been paid by the planters themselves because overproduction has prevented their adding the tax to the selling price. And yet their present troubles are attributed to the prices abroad! It would appear that the most urgent propaganda just now is that of securing a reform in taxation.

The importation of coffee at Pacific coast ports for the trade-year ending June 30, 1900, were 142,591 bags, of which 137,993 bags were from Central America. The sales were 89,800 bags, against 99,359 bags for the previous year. Stocks in hand stands, 57,887 bags, against 59,573 bags for same date in 1899.—*American Grocer*.

PUBLICATIONS RECEIVED.

Talisman contra o Dinorico; translated from the French of Dr. Jules Gayot and published by A. Lavagnisse Filho & Co., 1900.

Relatorio de Dr. João Baptista de Mello Peixoto secretary of finance of the state of São Paulo, for the year 1899.—We shall take much pleasure in reproducing the statistical returns given as circumstances will permit.

Café; Synops 1809-1900; compiled by L. P. Nunes, Broker. An exceptionally complete and valuable statement of coffee returns for the years 1804 to 1900, giving crop receipts, exports with destination, stocks month by month, monthly receipts and a table of comparisons between the average price of coffee and exchange, which shows that they are not vogue-mates as alleged. We shall take much pleasure in reproducing some of these tables as our space permits.

Historia Topographica e Bellica da Nova Colonia do Sacramento do Rio da Prata; from the original of Simão Pereira de Sá, edited by the Lyceo Litterario Portuguez do Rio de Janeiro, and printed at the Typographia Leuzinger, 1900. One of the commemoratory publications in honor of the fourth centenary of the discovery of Brazil. A work of great historical interest and an invaluable contribution to the early history of Brazil and the original of Simão Pereira de Sá, edited by the Lyceo Litterario Portuguez do Rio de Janeiro, and printed at the Typographia Leuzinger, 1900. One of the commemoratory publications in honor of the fourth centenary of the discovery of Brazil. A work of great historical interest and an invaluable contribution to the early history of Brazil and the struggle between Portuguese and Spaniards for the possession of the territory, now forming the republic of Uruguay. The book is beautifully printed and is a credit to the printers.

Six hundred Boer women and children were expelled from Pretoria in July—the middle of the winter season—and were sent into the Boer lines. Mrs. Kruger was one of the number. This is an act with which history will not deal kindly and leniently.

The inventor of the safety bicycle, George Shergold, is to day 76 years old and is as poor as he was before his invention. He was a Gloucester shoemaker, and his invention appeared in 1876. Millions have been made out of the machine, but not a single manufacturer remembers the man to whom they owe their wealth. A royalty of a sixpence a machine would enable the poor old shoemaker to end his days in comfort.

Nearly every day the Jornal do Comercio publishes long telegrams from Buenos Aires in regard to the intended trip of President Carneg...

The murderer, Deputy Irineu Machado, having petitioned for an immediate trial—perhaps with the purpose of returning to the chamber of deputies to assist in making laws for our government—the 2nd public prosecutor, Dr. Moraes Sarmento, on the 20th inst., reported against granting the petition...

A controversy has arisen between the Jornal do Comercio and the director general of public health in regard to the sanitary commissioners which are sent by the Argentine government to Brazilian ports for the purpose of ascertaining whether the proper hygienic precautions are taken in these ports on board vessels leaving for those of Argentina.

There is a bill before congress for adding another battalion to the police brigade. Although the minister of justice is said to favor this measure, it seems to us that the bill should be rejected, since, if it passes, it will cause an unnecessary and unjustifiable increase in the expenditure of public money.

Burdensome taxation and other restrictions on business are detrimental to existing trade and constitute a formidable obstacle to the extension and enlargement of commercial relations. To remove this obstacle by combating its causes is meritorious work which a diplomat who has at heart his country's commercial interests will sedulously endeavor to stimulate.

I have been wondering remarked Mr. Smalwet as he dropped in upon us yesterday, how long it would be before your esteemed contemporary would be tired of maintaining the peace. I felt sure he could not keep it up indefinitely, for I have a suspicion that he is using the News to keep down his avowed dupes.

There being complaints that Lieutenant Vinhas, Reis Junior and Costa Mendes were not allowed to communicate with their families, friends and lawyers, the government has answered that any one may obtain permission to see the prisoners by applying to the department of marine.

Would to heaven we could add that of Newsweek also! Thus Minister Martinho's Brazil Review, in commenting on our denunciation of the abusive change in paper classification, in which we stated that book publishing will become an impossibility. We reproduce the comment, for it is unquestionably sincere.

AMATEUR THEATRICALS.

The second performance of the Leahay amateurs at the International Club, Niteroi, took place last Saturday evening. The club-rooms were well filled and everything passed off smoothly and to the great satisfaction of everyone present.

A HAPPY PAIR.

Mr. Honeyton..... Mr. E. A Tootal
Mrs. Honeyton..... Miss Corina Whyte

TO OBLIGE BENSON

Trotter Southdown (an amateur farmer)..... Mr. R. Ross Napier
Lucy Southdown (his wife) Miss Whyte
Mr. Benson (a lawyer)..... Mr. E. A. H. Roberts
Carry Benson (his wife)..... Miss Saunders
Mr. Meredith (Benson's pupil)..... Mr. J. H. Statham

OUR BITTEREST FOE.

Gen. von Rosenberg (a Prussian officer)..... Mr. A. C. Wilson
Henri de la Fere (a French officer)..... Mr. W. C. Thompson
Blanche d'Evran (his cousin)..... Mrs. Thompson

As before the scenery was painted by Mr. W. C. Thompson. We can not commend the effort to maintain these performances too highly, and we trust they may be kept up. Some of the performers act exceedingly well, but we do not care to discriminate.

The next performance is announced for September 15th and will be given in aid of the Strangers' Hospital, which is sure to draw a crowded house.

BUSINESS NOTES

The federal custom-house at Manaus is said to be in ruins.

On going in to bat a second time the British Bank scored 76 for the loss of one wicket. Evill was 26 not out, Morrissy c. Nobrega b. Ridgway o. McNair 44 not out.

The minister of war has now received three private offers for the purchase of old iron and unserviceable metals, which he considers more favorable than the various tenders made heretofore.

A determined attack has lately been made on the defective and prejudicial analyses of Portuguese wines at the official laboratory, and with a fair chance of success. The said laboratory is a serious obstacle to trade and should be abolished.

The Amazonas state treasury has called upon Marinus Levy, representative of Floriano de Brito, to redeem the sales (?) of the Banco do Estado do Amazonas which had been received by the recbedoria of that state.

There seems to be a fair chance for a change in the tariff on printed matter, which will give the printing offices in this country a chance to live. Under existing laws, it is much cheaper to have books printed in Europe than in Brazil, owing to the taxes imposed on paper, etc., and the costs of running such offices here.

We hear that four important national match factories are uniting to form one company, which will unquestionably be an advantage in some respects.

A Manaus telegram of the 23rd says that the governor of Amazonas has ordered photographs to be taken of the merchandise exposed to the weather on the quays, piers and beaches of that city.

When exchange goes up or down a half penny at a jump just to suit the interests of two rival banks which are struggling to inflict loss upon each other, the general public has every right to complain bitterly.

At a meeting of 173 creditors of Cresta & Co., representing nearly 1,600,000 of indebtedness, in S. Paulo, on the 21st inst., it was resolved to accept a proposal of the insolvent firm to pay 20% of what it owes.

There may be some bigger thieves than the municipal officials of this capital, but they are scarce. They are like highwaymen and no one can escape them.

Having failed to raise cash by means of a loan, the municipal government of this city is now trying to find cash to tide over some of its pressing difficulties by means of fines.

The minister of finance has determined that the sale of articles at auction requires a double stamping—a proportional stamp on the document which the auctioneer gives to the owner of the objects sold, and a 300 reis stamp on each account delivered to purchasers.

It is said that the minister of finance proposes to impose a fine of two to five contos on an important commercial house of this city for attaching a revenue stamp already used on a document.

It will be a surprise to many to learn that the government entertains even the slightest preference for free trade. There is not the slightest trace of free trade in the country— not even between the states.

Last year was certainly not conducive to the prosperity of the Companhia Fabrica Nacional de Conservas Alimentares.

The towns of Livramento and Quaraty in the state of Rio Grande do Sul seem to be losing their trade. In these towns, according to the Mercantil of Pelotas, the sales of houses that formerly did a large business now average only from 55 to 105 a day.

The directors of the Bahia commercial association propose to protest against the increase in the 'industria e profissões' tax in respect to commercial transactions. The tax was 1/2 per cent, but in this year's budget it is doubled.

In the report of the minister of foreign affairs it is stated that on the 10th of last April the United States minister laid before the Brazilian government a dispatch from the state department comparing the burdens imposed in Brazil on imports from the United States with those imposed in the United States on imports from Brazil.

The Companhia Engenho Central de Quissaman, among whose shareholders are some of the most reputable sugar planters of the state of Rio de Janeiro, has for twenty-five times paid interest on its debentures with un-failing punctuality.

Another fibrous plant some experience was recently gained by the British consulate at Rio de Janeiro. The plant was introduced to the consulate as 'Agave Americana', but on being examined at Kew it was found to be really 'Agave rigidus'—the sisal hemp plant.

If you intend going into business, says Smith, first provide yourself with an abundance of surplus capital for the purposes of paying taxes and fines. Then hire half a dozen robust and intelligent citizens to wade through the many volumes of tax regulations (otherwise known as the gospel according to S. Joaquim) and inform you what is lawful and what is unlawful.

The towns of Livramento and Quaraty in the state of Rio Grande do Sul seem to be losing their trade. In these towns, according to the Mercantil of Pelotas, the sales of houses that formerly did a large business now average only from 55 to 105 a day.

SATURDAY'S QUOTATIONS—S. PAULO.

Table showing Saturday's quotations for S. Paulo, listing various banks and companies.

PERNAMBUCO.

From the August Freight Report and Shipping List of Mr. Arthur B. Dallas, we extract the following notes: Sugar.—The rains mentioned in my last have continued and the canes everywhere, except in hilly districts, have improved considerably so that the calculated deficit on the coming yield will be reduced.

4800 @ 3800; Mascavados 3500 @ 3800; Brutos secos 4800 @ 3800; Brutos molhados 2700 @ 3800; Retames 2800 @ 2800.

Colton.—The prospects for the next crop are decidedly better, as although the setão yield will prove small, recent rains have reached other localities where cotton is planted, and hopes are now entertained for the future which until lately did not exist.

Entries have fallen off and transactions have been on a small scale. My quotation to-day is 15000 per 15 kilos on shore for 1st Pernamb., at which figure some lots changed hands.

Cereals.—The foregoing remarks apply with still greater force to these articles of consumption, and producers look forward to a fairly good harvest of maize, beans, mandioca, etc.

Table showing exchange rates for various locations including Rio and Santos, with columns for location, date, and rate.

Table showing exchange rates for various locations including Rio and Santos, with columns for location, date, and rate.

Table showing exchange rates for various locations including Rio and Santos, with columns for location, date, and rate.

Freights.—No charters have recently been effected here excepting a small vessel to load coffee at Rio, for Cape-Town; and business has been solely confined to limited shipments coastwise and to Liverpool, Brit. str. Liverpool, and the Brit. str. Explorer is now about to load for same quarter. There will be very little doing this month, but in the following one I expect to see a demand for handy sized sailing vessels to load sugar for the United States ports.

Aracaju shipments of sugar from 1st September 1899 to 30th June 1900:

Table showing sugar shipments from Aracaju, listing Brazilian ports and foreign destinations.

Crop in the State of Sergipe for 1900/1901 is estimated at 280,000 bags sugar equal to 34,285 tons.

FURNITURE REMOVERS AND CARRIERS.
PRAÇA TIRADENTES N. 31 - (Largo do Rocio)
PRAÇA DUQUE DE CAXIAS N. 1 - (Largo do Machado)

The vans employed by us are manufactured expressly for the removal of Furniture, Pianos, Marble work Statuary and objects of lux in general, being upholstered inside to avoid jars and breakage in transit. The Company hold itself responsible for any damage or injury caused by its employes to goods confided to their charge, but all claims must be made within 24 hours of the time of service, or they cannot afterwards accept responsibility.

Special vans and experienced men for the removal of pianos.

The Company has for hire "caminhões" and "andorinhas" for Niteroy, and as its vans are all duly licensed all risk or loss of property is thus avoided.

The Directors beg that any complaints or irregularities due to their employes, may be at once reported at either of the above-named offices.

BUILT UP ON NATURE'S PLAN.

MELLIN'S FOOD

RESEMBLES MOTHER'S MILK IN COMPOSITION AND PROPERTIES. IT MAY BE GIVEN FROM BIRTH.

PATRIOTIC APPEAL

FOR THE
Festivities in Commemoration of the
4th CENTENARY
OF THE DISCOVERY OF BRAZIL

COMMEMORATIVE STAMPS

The widespread acceptance which the issue of these interesting stamps has had, as shown by the large sales effected, is a brilliant sign of the patriotism of the Brazilian nation. In this way, everybody poor and rich, contributes with his share towards the erection of lasting monuments which will honor the history of the country.

The present appeal will serve to advise those who have delayed in order that no one shall fail to contribute for this great and truly popular subscription by acquiring the largest quantity of

SERIES OF COMMEMORATIVE STAMPS

for sale, in complete sets of 100, 200, 500 and 700 reis for
\$500 each set
At the general depôt of

LAEMMERT & Co.
68, RUA DO OUVIDOR, 66
RIO DE JANEIRO

The acquisition of these stamps, constitutes, apart from its patriotic end, a highly remunerative investment, if we take into consideration the small number of stamps, only 4, the limited issue, authenticated by the destruction of the lithographic stones, which took place on the 30th December last; the low price of each stamp which will not be altered, and the resolution of the Association to burn all unsold stamps by the 31st September proximo, so that it may be safely said that in the near future these stamps are sure to be well quoted in the philatelic markets of the great capitals of the world.

COMMERCIAL PRINTING

OF EVERY KIND AND DESCRIPTION AT
No. 79, Sete de Setembro
1st floor.

PRINTERS

11, RUA DA QUITANDA, São Paulo.

SEA SICKNESS

26 cases were treated on board s.s. "Olin-da" by Dr. Ernani Pinto with Tinture of Nectandra and of these, 22 cases were completely cured, and the remaining four became much better.

The illustrious naval surgeon Dr. Henrique Manganon says that "during voyages on men of war I have had occasion to use Tinture of Nectandra Amara of Mr. Antero Leivas against sea sickness and always with excellent results.

Numberless testimonials of travellers justify the results obtained by these distinguished physicians, with the Tinture and pills of the Nectandra Amara against sea-sickness.

In order to facilitate the use of this medicine a prospectus accompanies each bottle written in the Portuguese, English and French languages.

N. B. The Nectandra Amara pills are formulated with the same doses of the Nectandra, in order that they may be sent by post all over the world with the least possible delay to supply the want of the Wine Elixir and Tinture of Nectandra Amara which are liquid and cannot, therefore, be transported by the same rapid and sure means.

For sea sickness, nausea in pregnancy impoverishment of blood, weakness of the legs and convalescence after long and serious illness, the pills should be ground and dissolved in a small glass of Port wine in order that they may be taken as a liquid to insure a prompt action; it is also to facilitate for adults and children who cannot take dry pills, and in this case they can be dissolved in pure water if no wine is to be had.

Persons who have no connections here and who may desire to have these most useful pills can obtain them by applying direct to the proprietor who undertakes to remit orders by registered post to any part of Brazil, or abroad, for the small sum of 2\$000 per box, 14\$500 for 6 and 28\$000 for 12 boxes.

LAGE IRMÃOS,
Rua do Hospicio, 9.

T Tropon is pure Albumen; it offers this most
important constituent of our daily food in highly
concentrated form. The nutritive value of one
pound of Tropon equals that of 5 pounds of
prime beef or 80-90 eggs.

R Tropon is almost entirely assimilated by
the system and transformed into blood and
muscles, a fact which is of highest importance
in those cases where the digestive canal has to
be cared for in mechanical respects. (Dysen-
tery, Diseases of the intestines, etc.)

O Tropon is very easily digested; it represents
a food which without overstraining even the
weakest stomach offers a large amount of nutri-
ment. (For Children, disorders and diseases of
the Stomach, Kidneys and the Nervous System,
Liver complaints, Convalescence, etc.)

P Tropon—by replacing the lost Albumen—
enables us to arrest the decline of strength
caused by fever and infectious diseases. (Yel-
low Fever, Blackwater Fever, Malaria, Tubercu-
losis, Typhus, etc.)

O Tropon is a tasteless and odorless powder.
It can be mixed or baked or cooked with other
food or else can be taken in drinks.

N Eminent medical authorities are constantly
calling attention to the merits of Tropon.
Sold by all Chemists throughout Brazil

RIO DE JANEIRO HAMBURG

THE RIO NEWS.

This paper is now in its 26th year, having originally
been published as *The South American Mail* and *The
British and American Mail*. It assumed its present
title at the beginning of April, 1890, when it was pub-
lished three times a month. From a tri-monthly it has
been changed to a weekly publication, and from four
pages it has been increased to twelve.

As an advertising medium *The Rio News* occupies an
exceptionally advantageous position. It circulates
widely throughout Brazil, and also in Europe and the
United States. Its subscribers are principally business-
men interested in Brazilian trade, industries and in-
vestments. No other periodical, even with much
larger circulation, offers better inducements to ad-
vertisers who seek the attention of those classes.

All communications should be addressed to the
Editor and Publisher, Caixa de Correio, 28, Rio de
Janeiro.
