HAND BOOK OF RIO DE JANEIRO

A SECOND EDITION of this useful guide book is now in course of revision and will be published about the end of August. It will be considerably improved and enlarged. A few good advertisements will be received. For terms and other information apply to the Editor of The Rio News.

WEST COAST ITEMS.

—The arms and munitions purchased in Europe by General Körner, are beginning to arrive in Chili.

—A Santingo telegram says that the Chilian ministers to various South American countries have been called home for instructions.

—The irrepressible Walker Martinez has in-terpellated the Chilian government in regard to the visit of President Campos Salles to Buenos Aires.

—A Lima telegram of the toth inst. says that the Chilian ex-minister of foreign affairs, Sfr. Urmeneta, has had a most important interview with President Romana in regard to Pacific coast questions.

The income of the Chilian state railways (central system) in July, amounted to \$559.977.04; and the expenditure to \$7,115,500.97. In August the expenditures exceeded the income by \$492,605.81.

—An exceptionally important statement was cabled from Lima last week—and has not been contradicted—that the Chilian minister at that capital had proposed to the President of Perú the division of Bolivia among the contiguous countries.

—Advices from New York state that the revolution in Colombia is still going on. The people are impoverished and are suffering the greatest hardships, but still the miserable struggle proceeds. Self-government is a beautiful theory, but for such a people it is nothing less than a calamity.

nothing less than a calamity.

—During several days past there have been tunnults in the streets of Linna, arising from a deeply rooted opinion that President Romaña was using his power and influence to shield the ex-minister of finance, Belannde, from the consequences of his acts. It is reported that Belannde was entrusted with a large sum of money for remittance to Europe for account of the government, but instead of remitting the money he kept it and drew bills on somebody in Europe and they were protested. Since the rioting Belaunde has been arrested and Icdgel in goal and will be tried for his offence. Like Romaña, he is a native of Arequipa.— Chilian Times, Oct. 6.

RIVER PLATE ITEMS.

-The Paraguayan health authorities deny that cases of bubonic pest have appeared at Villa Concepcion.

—The Buenos Aires press has renewed its compaign for restrictive measures on the propagation of pulmonary tuberculosis.

—The Brazilian journalists visiting Buenos Aires set out on their return on the 9th inst., making a brief call at Montevideo.

—During the first uine months of this year there were exported from the port of Rosario 726,348 tons of wheat 166,833 tons of [maize, and 62,734 tons of linseed.

A Buenos Aires telegram of the 8th says that 15 steamers in the port of Salto, on the Rio Uruguay, had been damaged by a violent cyclone, which had passed over that place.

The municipality has purchased a pair of carriage horses from Casares' estancia in Canuclas for \$5000, which have been presented to the President of Brazil, Dr. Campos Salles.

—Southern Cross, Nov. 2.

The Argentine sanilary board has decreed quarantine against Paragiay, because of a report that new cases of bubonic pest had appeared. This shows that Argentina still holds her antiquated prejudices in soite of the exception made in favor of Brazil. If quarantines are not enforced against Brazil while cases are appearing, why should it be enforced against Paraguay because of such cases?

against Paraguay because of such cases?

—A United States consul reports that a stock company was recently organized in Asuncion to cultivate yerba male in Paraguav. The campany has a paid-up capital of \$100,000 paper, or about \$15,000 gold, and was to have started in business in June. 1900. So far as is known, this is the first attempt that has been known, this is the first attempt that has been control to the product has been obtained from the yer bales where it grows wild. The production of yerba mate promises to become a paying industry. The consumption of the tea made from the leaves of this herb has attained enormous proportion in the River Plate countries—Exchange.

ARGENTINE CAMP LIFE.**

ARCENTINE CAMP LIFE.*

It must be said that Mr. Buifin's contribution to the popular Overseas Library is more than a collection of stories, more or less interesting in 'themselves; it is a character study of rare merit and an introduction to a life wholly new and absorbingly interesting. We have read the two or three attempts to picture the rough life of the River Plate camps—Hudson, Pilling and Cunnyugham Graham—but somehow they lacked familiarity with it. Mr. Bulfin, however—or 'Che Buonos as he is known to the readers of The Southern Cross—spent his first years of Argentine life in the "camp," the friend and companion of the gauchos and alien "rough-riders" of whom he is now writing. He knows their life and customs and thoughts intimately, and, what is better, he knows how to tell their adventures just as they would tell them themselves

* Tales of the Pampas; by William Bulfin. London T. Fisher Unwin, 1900. 1/6.

around the campfire. There is something of the soil and the wide horizon and the clear blue sky in these pages and it is a pleasure to absorb them.

We have seen some of these stories in The Southern Cross, and others as good, if not better, from the same pen, and we may therefore hope for another volume at no distant day. There may be no little monotony in the life of the cattle and sheep herders of the great Pannas of the south, but there is danger, and adventure, and romance as well. It is a new life to us; it has its own standards and rewards, but it is worth the study of the student of life just as truly as the life of the wild riders of the American prairies, or of the half savage royageurs of the frozen north. And it is fortunate that this new land has found so sympathetic and facile a writer as Mr. Bulfin to introduce it to us.

SHIPPING NOTES

—The passengers who left Rio on the 4th inst. by the Lumport & Holt steamer «Hevelius», were the following for New York: Messrs. Allen A. Chisholm, C. F. Hammett, O. D. Robbins, I Wilson Sprathy, Stewart Iglehurst, and 22 third-class.

Iglehurst, and 22 third-class.

—We are favored, says the B. A. Standard, with a letter from some passengers by the "Highland Princes" requesting us to make public that Mr. James F. Williams, the chief engineer, was a principal saviour of the passengers and crew, as but for the energy and ability shown by him, there would certainly have been more deaths on board from the bubonic pest. He was doctor, nurse and disinfector, all in one, and did not allow himself a moment's rest, night or day. He also proved of invaluable assistance to the Argentine and Uruganyan sanitary authorities in helping them to disinfect and restore the steamer to a healthful condition. Honor to whom honor is due.

—The captain of the "fulia Parks" has pre-

steamer to a healthful condition. Honor to whom honor is due.

—The captain of the "Julia Park" has presented a claim, through the British legation, for compensation on account of the undue detention to which she was subjected by the sanitary authorities under pretence of disinfection. As we remarked when commenting on the case some little time ago, there are strong grounds for such a claim, and if this course were adopted oftener, it might teach the sanitary authorities to be less reckless in their dealings. Some of our native contemporaries, referring to the case, allege that the captain was to blame, at first pretending that he was going on to Buenos Aires and then deciding to remain here. We have reason to know that there is no truth at all in the statement; on the contrary, the captain was continually signalling for his vessel to be attended to, without result. In any case, wherever the vessel was going, to detain her for disinfection, after she had been 33 days out and all well on hoard, was a monstrosity for which the authorities responsible ought to be made to pay. We are very glad to see the matter has been taken up, and hope it will be pushed energetically.—Montecideo Times, Nov. 1.

COFFEE NOTES

—Less than five years ago the first coffee seeds were introduced into Uganda by missionaries. Now there are extensive crops under cultivation. Last year 100 tons were exported from Uganda, and this year this amount will be greatly exceeded. The quality of Blantyre coffee is said to be the best in the world, superior even to the famous Mocha.—Commercial Intelligence.

Commercial Intelligence.

—The heavy receipts of coffee at the port of Santos, in Brazil, are attracting attention in the trade, as well they may. Notwithstanding that the arrivals are much below the normal volume, the total for the two ports is not far below the figures a year ago, when prices were at about their lowest point. The effect of these heavy receipts on prices has been helped by the receipt of estimates pointing to a liberal crop of Rio and Santos coffee the coming season.—Merchants Review, Oct. 5.

The preliminary report of the census just taken shows that the population of the United States now amounts to 76,295,229. The increase during the last ten years has been 21 %.

ACCORDING to telegrams of the 7th the presidential elections in the United States resulted in a victory for McKinley and Roosevelt, who obtained 305 electoral votes against 142 for Bryan and Stevenson. McKinley carried 29 states, and Bryan 16. This is a greater victory than four years ago and will probably end Bryan's ambition and the silver craze.

THE following modifications in Her Majesty's cabinet are announced: Lord Salisbury resigns the portfolio of foreign affairs but retains the premiership; Lord Lansdowne retires from the war office and becomes foreign minister; Mr. St. John Brodrick is promoted from the under-secretaryship of foreign affairs to the war office; Mr. C. T. Ritchie, formerly president of the board of trade, becomes home secretary; Lord Selborne becomes first lord of the admiralty; and Sir George Wyndham has been appointed secretary of state for Ireland. The appointment of Lord Lansdowne to the foreign office has aroused much criticism.

BANCO DA REPUBLICA.

The Banco da Republica has issued its bal-ance-sheet for the 31st ult. Comparing this bal-ance-sheet with that for Aug. 31, we find certain changes, some of which we proceed to

point out.

The aggregate assets and liabilities at the respective dates were as follows:

relief measures of the government are to be of any real assistance. It is to be said, however, that the Bauco da Republica only resumed operations on the 5th inst., and that negotiations are

still in progress for the settlement of the claims of creditors upon the other

banks. But it is a long time to wait for relief, when the very existence of many a commercial establishment is at stake, and especially when failures are

alarmingly frequent. Recently one of the most respectable importing houses

the most respectable importing houses in this city was compelled to close, and others are scarcely able to meet their obligations. Our inquiries among business men are to the effect that, while trade has improved a little, the situation is as black as ever. Discounts are still almost impossible, and we hear of pay-

ments made even with «signed accounts.» Unless liberal assistance soon comes Unless liberal assistance soon comes there will be an epidemic of failures before the year ends. To repeat what we have before said, the market is in urgent need of money. There is surely

In the foregoing we make no attempt to present a complete analysis of the two balance-sheets. Our object is merely to point out certain changes and other circumstances which seem to us to be interesting.

The new balance-sheet strengthens our belief that one of Minister Murtinho's motives for forcing the creditors of the bank to accept payment in 3 per cent bonds was to get possession of the ready money which he hopes to obtain from deposits and from realising on certain assets of the bank. To his successors he will leave the task of finding means for redeeming these bonds.

The Jornal do Commercio of the 11th inst. publishes the following alterations in the whead office and branchess accounts of the foreign banks located in this capital, as shown by the balance-sheets for October:

On 30th September the Brasil- ianische Bank owed	836,000\$

What the Rio News. means by "money" we now know, and so we have no difficulty in understanding from the above that the Braditian government is urged therein to adopt a rolicy, not merely in arrest of the continued incineration of paper—for, which, indeed, much may be said—but positively in the direction of a renewal of those issues of fiductary currency which have previously done so much to compromise the financial, position of the republic. We will not question the sincerity of our contemporary in expressing this view, so greatly in conflict with our most accredited monetary authorities, but we venture to dispute its practical, wisdom. The best way of rom our contemporary's opinion in this respect, and we are glad that there is no probability of his advice being followed by the Brazilian government. It is evidently fixed in its determination to put an end, we hope for ever, to the mischlevous era of paper currency emissions. South American Journal, Oct. 20.

Our London contemporary must have

Our London contemporary must have known that in speaking of burning money, we did not mean gold and silver, but just ordinary currency, or paper money. To base an argument on the use of a word—and mistaken use, if you please—is surely a waste of time. If the editor of the South American Journal will take the trouble to look up the definitions, he will find that paper money can be termed money, but we certainly should not insist upon that in the case of inconvertible paper, because in a general sense money is a «standard of value and medium of exchange.» Inconvertible paper may be a medium of exchange, but hardly a standard of value.

standard of value.

However, no matter what the authorities say, it is all we have, and we are paying our taxes with it to support an army of parasites who have nothing better to do than applauding and excessing an arbitrary, and extravagant better to do than applatuding and ex-cusing an arbitrary and extravagant government. It may be a poor excuss for money, but the South American Journal has been the staunch defender of all the administrations which issued it and can not now pretend to condemn the stuff.

As for the assertion that we favor and As for the assertion that we tavor and advise issuing more paper money as a solution for the present crisis, our contemporary states what he knows to be untrue. We have never favored nor advised any such thing. We have condemned the burning of paper money, simply because we hold that the minister of finance has no right to do so until all his obligations are met and he until all his obligations are met and he has a clearly-established surplus. To burn currency while thousands of contos of unpaid accounts are awaiting settleof unpaid accounts are awaiting settlement, is clearly an act of dishonesty. Morally speaking, the money—pardon, the paper money—does not belong to him, but to his creditors. In private affairs the debtor who destroyed his money or other property before satisfying his creditors, would be considered guilty of a dishonest act, and we do not recognize any different code of morality.

gunty of a disnonest act, and we do not recognize any different code of morality governing the affairs of nations.

We trust the South American Journal will excuse our plain speaking. We are quite prepared to defend any position which we have really assumed, but we do not care to be loaded with opinious which we do not take to the loading to the plain to the state of ions which we do not hold just to give a government organ opportunity belabor us.

In an item published in our last issue regarding a political disturbance at Jundiahy. São Paulo, it was stated that the chief of one of the factions is Deputy Adolpho Gordo. This gentleman has informed us that the statement is incorrect and asks us to correct the mistake, which we do with pleasure. The chief of the faction in question is Col. Antonio Joaquim Pereira Guimarñes, known popularly as "Coronel Gordo", and his followers as the Grupo gordista". The name is an unusual one, and it is from this that the mistake arose. We are informed by Deputy Adolpho Gordo that he has no connection whatever with this faction, nor with the Jundiahy conflict.

being incinerated by Dr. Murtinho, and that it was thus simply reducing the national indebtedness by means of a most effective destruction of its obligations to the public in this form.

In a leading article on this subject, our contemporary also observes:—

"The 25,000 contos to be advanced for discounts will not help us out of the difficulty, the trumporary also observes the most proposal of the delegates and affirmed the need of union among the Latin republics for the defence of their independence. The impression in Madrid seems to be that the congress will lead to a Latin-American alliance. In view of reported proposal of Chili for the

HAIR SPLITTING.

We are not surprised that the Rio News should take much exception to the procedure of the Brazilian government in relation to the liquidation of the Banco da Republica. Our contemporary is always an energetic censor of the Brazilian finances, and this opportunity was one not likely to have been allowed to pass. But we must admit to some sentiment of wonder when we find our Rio colleague suggesting, as it appears to us, that the sperfect cures for all the evils of a critical financial situation is the universally discredited recourse to a fresh emission of paper currency. «Perhapa,s says the Rio News, after minister of finance now sees what a mistake he has been making by burning money. Burning money. This is a revelation. Here, in England, we have been under the impression that it was only paper currency that was being incinerated by Dr. Murtinho, and that it was thus simply reducing the national indebtedness by means of a most effective destruction of its obligations to the public in this form.

In a leading article on this subject, our con-

division of Bolivia among her neighbors, an alliance is needed to protect these Latin republics from each other. If such an union could prevent the devastating civil wars which are impoverishing these countries, and curb the aggressiveness and ambition manifested by some of them, much good would certainly result. But such an alliance is very problematical. It is easier to unite against an imaginary enemy than it is to put restrictions upon each other, and so we may believe that the Madrid congress will result in nothing practical beyond the propagation of suspicion and jealous fear. It is possible that good results could be achieved by the cultivation of friendlier relations based on the common of the Spanish republies of this continent, but it is the nature of the Latin-American to deal principally with concrete political questions and he will hardly be content to restrict himself to such in inglorious and slow-moving propaganda.

—Some of the European papers have been struggling manfully to make the best of the situation out here, and in some cases have accomplished more than we had any right to expect, as the following clipping from a Loudon paper (verbatim) will show:—"A despatch has been received in Paris from Rio de Janeiro, stating that it is officially any nounced that Mr. Petersen, Senhores Custodio and Almeida, and Dr. de Magalhaes have been appointed directors of the Banco da Republica."

— After a very painful illness Admiral Eliezer Continho Tavares died in this city on Sunday, the 11th inst., just two days after completing the 56th year of his life. The deceased officer distinguished himself in the Para guayan war and in the naval revolution. At the time of his death he was treasurer of a committee for raising money for the fund for erecting a monument to the memory of his comrades killed in the latter. He was very much esteemed and his death is nourned by a large number of friends both in naval and civilian circles.

— If ex-Gov. Luiz Vianna with all his infunce, energy, conrage and ability cannot carry an election against the government, what hope can any one have of being more successful? And, if the success of the government is a foregone conclusion, are not elections a mere farce? And, if elections are a mere farce, how are the people to obtain a peaceful solution for their political questions; And, if in these South American republics there is no peaceful solution for political questions, is it not tidle to hope for a cessation of revolutions and conspiracies?

—Deputies Fausto Carloso and Rivadavia Corràe in the chamber on Saturday called each other infamous and then fought about it. Only were exchanged. The belligreents were then separated and congress went into secret session in which it was resolved that the incident should be omitted in the official record of the proceedings. After leaving the chamber Deputy Fausto Carloso went up Rua do Ouridor, followed by an admiring crowd that cheered him heartily. On reaching the office of the Culade do Kio he went in and from one of the windows made a short speech to the rockleshell yacht and two ferry boats loaded with admirers, and in spite of the thousands of curious people who thronged the water front to see the spectacle, the Presiden and his white squadron failed to put in an appearance, and did not arrive until the next morning. There was an off

PAYSANDU CRICKET CLUB.

PAYSANDU CRICKET CLUB.

LADIES 18. GENTLEMEN IST NOVEMBER 1900.*

This is the first time that a team of ladies has played against gentlemen on the Paysandid cricket ground, and the event was such a success that we shall expect to see it repeated every year. A match of the same kind has already taken place this year on the R. C. & A. A. ground and perhaps we may hope, next season, to see a match Rio v. Nichteroy, Fair Sex. The gentlemen, as usual, were only allowed broom sticks and had to hat and field with their left hands. No pads or gloves were allowed to be used by them, but this privilege was made optional for the ladies.

The Ladies, under the captainship of Mrs. D'Arcy won the toss and elected for first inings: they were assisted at the wicket by Mr. R. H. Robiuson. Considering the little practice they have had in this sport their total score of 79 was a most meritorious one. Their chief scorers were Miss Legge and Mrs. D'Arcy, both playing a most careful, though vigorous, game. Mrs. D'Arcy, indeed, showed an experience in cricket which was both a surprise and pleasure to the onlookers.

The Gentlemen made a very good start with their innings and, at one time, it looked as if

* The report of this interesting match was handed in too late for insertion in our last issue, to our great regret.

they were bound to win, but, unfortunately for them, time was drawing to a closs and, in their anxiety, either to win themselves, or, at least, not to leave a drawn game, their last wickets fell very rapidly.

Miss Skerman's bowling was most successful, she taking no less than five wickets, at a cost of only 14 runs, and three of the batsmen being stumped from her bowling.

In fact, the excellent combined play of Miss Skerman, as bowler, and Mr. R. H. Robinson as wicket keeper, accounts, in a great measure, for the Ladies finally winning the match with a narrow margin of one run.

We were glad to see the veteran umpire, Mr. Maude, as this was a guarantee to us that no unfair play would be permitted.

We ought to mention that the Gentlemen were ably captained by the Rev'd. J. D'Arcy.

FINANCIAL NOTES

A telegram of the 11th inst. reports that the state government of Pará has succeeded in obtaining a foreign loan of £ 500,000.

—If we been thinking, a observed Smalwyt, sthat it would be a good idea to send him away again. Selnd who on away? We asked. Why, the President. Have n't you noticed how the revenue went up during last month? If his going away for a fortnight can produce so good an effect, what might we not expect from a year's absence? And Smalwyt actually glowed with the discovery he had made.

THE RIO NEWS.

THE KIO THEMS.

This paper is now in its zoth year having originally been published as The South American Mail and The Brittisk and American Mail. It assumed its present little at the beginning of April, 1839, when it was published three times a month. From a trimont hy it has been changed to a weekly publication, and from four pages it has been increased to twelve.

As an advertising medium The News occupies an exceptionally advantageous position. It circulates widely throughout Brizil, and also in Europe and the United States. Its subscribers are principally business men interested in Brazilian trade, industries and in restments. No other periodical, even with much larger circulation, can offer better inducements to advertisers who seek the attention of these classes.

All communications should be addressed to the Editor and Publisher. Caixa do Correlo, 285, Rio de Janeiro.
